#### THE PROOF IS IN THE NUMBERS

2006 was a year of significant accomplishments for TeleTech, as we continue to be one of the largest and most geographically diverse global providers of business process outsourcing (BPO) solutions. We have a 25-year history of designing, implementing, and managing critical business processes for Global 1000 companies to help them improve their customers' experiences, expand their strategic capabilities, and increase their operating efficiencies. By delivering a high-quality customer experience through the effective integration of customer-facing front-office processes with internal back-office processes, we enable our clients to better serve, grow, and retain their customer base. We have developed deep domain expertise that currently supports 300 BPO programs serving 135 global clients in the automotive, communications, financial services, government, healthcare, retail, technology, and travel and leisure industries.

Demand for these services is growing all over the world, and TeleTech is uniquely positioned to benefit from favorable trends in the global outsourcing environment. These trends include:

- » Integrating front- and back-office business processes to provide an enhanced customer experience
- » Increasing percentage of company operations being outsourced to the most capable providers
- » Increasing adoption of outsourcing across broader groups of industries
- » Increasing focus on speed-to-market by companies launching new products or entering new geographic locations

Based on industry reports, we estimate that companies are spending approximately \$5 trillion worldwide on business processes. International Data Corporation (IDC) has reported that in 2005 companies outsourced \$385 billion of BPO services globally. This is projected to grow to \$618 billion by 2010, representing a 10% compounded annual growth rate. According to Gartner, the portion of business process services outsourced offshore is projected to grow more rapidly, from \$6.4 billion in 2005 to \$42.9 billion by 2009, representing a 61% compounded annual growth rate. We believe TeleTech is uniquely positioned to capitalize on this growing global opportunity given our 25-year history, the scale and diversity of our delivery capabilities, and our proven reputation for operational innovation and excellence.

#### 2006 FINANCIAL RESULTS

In 2006, TeleTech reported double-digit revenue growth in every quarter. We had approximately \$250 million of net new and expanded business during 2006 and client retention in our core business was 93%.

We also enjoyed 11.5% year-over-year revenue growth, closing the year with \$1.2 billion in revenue. Revenue from our core BPO business, representing 97% of total revenue, grew 17% year-over-year. Additionally, we achieved a 6% operating margin and improved return on invested capital from 10.2% in 2005 to 21.4% in 2006.

Our offshore revenue is the fastest growing part of our business. In 2006, our offshore revenue grew 39% to \$400 million, and represented 33% of our total revenue. We believe this makes us one of the largest and most geographically diverse providers of BPO services. We are also expanding in two new, emerging markets and plan to continue to increase the number of offshore markets we operate in.

In 2007, our goal for the fourth quarter is to achieve a revenue run-rate of \$1.5 billion, an operating margin run-rate of 10%, and an EBITDA margin run-rate of 15%. In 2008, our goal is to grow revenue an additional 12-15%, and to increase our operating margin by 200 basis points over 2007.

'06 Revenue by Geography

United States	\$442,363	36%
Asia-Pacific	\$250,032	21%
Canada	\$205,692	17%
Latin America	\$171,660	14%
Europe	\$141,550	12%

#### DEFINING THE BORDERLESS ECONOMY

Our strategy is to sell our services to clients in G-20 countries while performing an increasing amount of the work in emerging markets where there is a growing pool of high quality labor with strong multilingual skills.

Of the 17 countries we operated in during 2006, seven provided services, partially or entirely, for offshore clients including Argentina, Brazil, Canada, India, Malaysia, Mexico, and the Philippines. Workstations in these countries comprised 56% of our total delivery capacity. As many of our clients choose a blended strategy by offshoring work with us in multiple geographies, including the TeleTech@Home offering, we believe our ability to provide one of the most comprehensive and geographically diverse offshore footprints reduces their operational and delivery risk in the event of a service interruption.

The other 10 countries in which we operate provide services for onshore clients including Australia, China, England, Germany, New Zealand, Northern Ireland, Scotland, Singapore, Spain, and the U.S. A key part of our future strategy is to perform more services for these clients in offshore locations.

#### LEVERAGING COMPETITIVE STRENGTHS

Over the past five years, we have measurably transformed our technology platform by moving to a secure, private, 100% Internet protocol-based infrastructure. This transformation has enabled us to centralize and standardize our worldwide delivery capabilities, resulting in improved quality of delivery for our clients along with lower capital and information technology operating costs. Our hub-and-spoke model enables us to provide services at the lowest cost while increasing scalability, reliability, redundancy, asset utilization, and the diversity of our service offerings. Our technology innovations have resulted in the filing of 14 intellectual property patents.

Additionally, globally deployed best operating practices assure that we can deliver a consistent, scalable, high-quality experience to our clients' customers from any of our 88 delivery centers or work-from-home associates around the world.

Finally, to manage and leverage our human capital requirements effectively, we have developed a proprietary suite of business processes and software tools that work together to improve performance for our clients while enabling us to reduce time to hire, decrease attrition, and improve time-to-service and quality of performance. Several of our clients have expressed interest in licensing all or parts of these tools, which, over time, will be an additional opportunity for us to diversify our revenue into higher margin offerings.

We believe that the key elements to our continued industry leadership include:

- » Our 25-year operating history
- » Focus on long-term client relationships
- » A flexible go-to-market strategy
- » Successful global recruiting, innovative employee training, and optimal performance platforms
- » Scale and diversity of our global delivery
- » Leading-edge technology
- » Strength in continuous process improvement

'06 Revenue by Segment

North American BPO	\$814,963	67%
International BPO	\$356,106	30%
Database Marketing and Consulting	\$40,228	3%

#### LAUNCHING INNOVATIVE NEW REVENUE OPPORTUNITIES

We continue to develop other new and innovative services that leverage our investment in a centralized and standardized delivery platform to meet our clients' needs, and we believe that these solutions will represent a growing percentage of our future revenue.

Our OnDemand suite delivers a comprehensive, fully integrated hosted offering, providing streamlined delivery center technology, knowledge, and services. This allows our clients to empower their employees with the same technology and best practices we use internally using a monthly subscription model.

We also offer a dispersed workforce solution that enables employees to work out of their homes while accessing the same proprietary training, workflow, reporting, and quality tools as our delivery center associates. TeleTech@Home associates are TeleTech employees, providing a strong cultural fit, seamless workforce control, and high levels of job satisfaction. Other benefits include outstanding quality, low churn, and high retention in addition to greater flexibility and scalability through the benefit of dispersed geography and proven processes.

**GROWING THROUGH ACQUISITIONS: DIRECT ALLIANCE CORPORATION**

On June 30, 2006, we acquired Direct Alliance Corporation (DAC), a provider of eCommerce, professional sales, and account management solutions to Fortune 500 companies that sell into, and maintain long-standing relationships with, small and medium businesses. DAC's annual revenues are approximately \$68 million and they contributed \$34 million in revenue to our consolidated results during the last six months of 2006. The acquisition was slightly accretive to our earnings during that period.

'06 Revenue by Vertical Market

#### LOOKING AHEAD

In the months and years ahead, we are poised for continued profitable growth.

We are committed to:

- » Deepening and broadening our relationships with existing clients
- » Winning business with new clients and focusing on targeted high growth industry verticals
- » Continuing to diversify revenue into higher margin offerings such as professional services, talent acquisition, learning services, and TeleTech OnDemand
- » Increasing capacity utilization
- » Scaling our TeleTech@Home initiative to increase operational flexibility
- » Completing select acquisitions that extend our core BPO capabilities or vertical expertise

06

# growth

the proof is in the numbers.

2006 was truly a successful year, and I want to recognize our clients and shareholders for their valuable support. I also want to thank our 47,000 worldwide employees for their success in 2006 and for their work every day to deliver exceptional services to our clients' customers. I believe our strong operational and financial foundation sets the stage for us to achieve our goals throughout 2007 and beyond as we continue our growth around the world.

As of February 1, 2007, there were 70,137,732 shares of the registrant's common stock outstanding.

**DOCUMENTS INCORPORATED BY REFERENCE**

Portions of TeleTech Holdings, Inc.'s definitive proxy statement for its annual meeting of stockholders to be held on May 24, 2007, are incorporated by reference into Part III of this Form 10-K, as indicated.

## PART I

This Form 10-K and the documents incorporated by reference herein contain “forward-looking” statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on current expectations and projections. Statements that are not historical facts, including those about the beliefs and expectations of TeleTech Holdings, Inc., are forward-looking statements. These statements discuss potential risks and uncertainties and, therefore, actual results may differ materially. We have set forth, in Item 1A which covers Risk Factors and Item 7 which covers Management’s Discussion and Analysis of Financial Condition and Results of Operations, a detailed discussion of risks and uncertainties relating to our business. We caution investors not to place undue reliance on these forward-looking statements, as they are current as of the date they are made. We undertake no obligation to publicly update or revise any forward-looking statements whether as a result of new information, future events, or otherwise, except as required by law.

In various places throughout this Form 10-K we use certain non-GAAP (accounting principles generally accepted in the United States (“U.S.”) (“GAAP”)) financial measures when describing our performance. We believe such non-GAAP financial measures are informative to the users of our financial information. We discuss non-GAAP financial measures in Item 7 of this Form 10-K under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Presentation of Non-GAAP Measurements.”

### ITEM 1. BUSINESS

#### Our Business

Our 25-year history has enabled us to become one of the largest global providers of onshore, offshore and work-from-home business process outsourcing (BPO) services with a customer management focus. We help Global 1000 companies enhance their strategic capabilities, improve quality and lower costs by designing, implementing and managing their critical front and back office processes. We provide a 24 x 7, 365 day fully integrated global solution that spans people, process, proprietary technology and infrastructure for clients and governments in the automotive, broadband, cable, financial services, healthcare, logistics, media and entertainment, retail, satellite, technology, travel, wireline and wireless industries. Our 47,000 employees provide services from 33,600 workstations across 88 Delivery Centers in 17 countries. We have approximately 135 global clients, many of who are in the Global 1000. The Global 1000 is a ranking of the world’s largest companies based on market capitalization. We perform services for many of our clients’ subsidiaries and support approximately 300 unique BPO programs.

We believe BPO is a key enabler of improved business performance as measured by a company’s ability to consistently outperform peers through business and economic cycles. We believe the benefits of BPO include renewed focus on core capabilities, faster time-to-market, streamlined processes, moving from a fixed to variable cost structure, access to global sourcing capabilities, and proprietary best operating practices and technology, all of which contribute to increased customer satisfaction and shareholder returns.

Industry studies indicate that companies with high customer satisfaction levels enjoy premium pricing in their industry, which we believe results in increased profitability and greater shareholder returns. Given the strong correlation between customer satisfaction and improved profitability, more and more companies are increasingly focused on selecting outsourcing partners, such as TeleTech, that can deliver strategic front and back office capabilities that improve the customer experience versus simply reducing costs.

#### Our Business History

We (“TeleTech,” “Management,” or “the Company”) were founded in 1982 and organized as a Delaware corporation on December 22, 1994 to continue the operations of our predecessor company. We

completed an initial public offering in 1996 and since that time our revenue has grown from \$183 million to \$1.2 billion in 2006, which is a compounded annual growth rate (“CAGR”) of 21%.

The majority of our revenue, or 97%, comes from BPO services and is reported in our North American and International BPO segments. These services involve the transfer of our clients’ front and back office business processes to our 88 Delivery Centers or our work-from-home associates. We also manage the operations of Delivery Centers for our clients. Front office services include helping clients acquire, grow, serve and retain their customers. Back office services include: managing clients critical processes such as products or service provisioning; lead generation, fulfillment and sales support; expense, loyalty, reward and supply chain management; claims, collections, loans, payment and warranty processing; Tier 1 through 3 technical support; retirement plan administration; data analysis, intelligence and market research; network management; and workforce recruiting, training and scheduling.

Our strategy is to sell our services to clients in G-20 countries while performing an increasing amount of the work in emerging markets where there is a growing pool of high quality, lower cost labor with strong multilingual skills. The G-20 represents 19 of the world’s largest economies, together with the European Union.

Of the 17 countries we operate in, seven provide services, partially or entirely, for offshore clients including Argentina, Brazil, Canada, India, Malaysia, Mexico and the Philippines. The total workstations in these countries are 18,700, or 56% of our total delivery capacity. Many of our clients choose a blended strategy whereby they offshore work with us in four to five locations as well as utilize our work-from-home offering. We believe our ability to offer one of the most geographically diverse offshore footprints reduces clients’ operational and delivery risk in the event of a service interruption due to environmental or political risks, in any of these locations.

Our offshore revenue is the fastest growing part of our business. In 2006, our offshore revenue grew 39% to \$400 million and represented 33% of our total revenue. We believe this makes us one of the largest and most geographically diverse providers of BPO services. We are currently expanding into two new emerging markets and plan to selectively increase the number of offshore markets we operate in over time.

The other 10 countries in which we operate provide services for onshore clients including the U.S., Australia, China, England, Germany, New Zealand, Northern Ireland, Scotland, Singapore and Spain. A key part of our future strategy is to perform more services for these clients in offshore locations.

### **Historical Performance**

As summarized below, following our initial public offering in 1996 we experienced double-digit revenue growth through 2000, undertook a business transformation strategy in late 2001 and began realizing the benefits of this transformation in 2004 and going forward.

From 1996 to 2000, our revenue grew at a CAGR of 48% from \$183 million to \$885 million, while diluted earnings per share grew at a CAGR of 54% from \$0.15 to \$0.85. Our growth during this period was primarily organic and attributable to strong demand for our services from both new and existing clients across an expanding array of industry verticals. Beginning in 1997, we were one of the first companies to provide BPO services to U.S. clients from Delivery Centers in Argentina, Canada and Mexico.

While revenue growth continued at a CAGR of 7% from \$885 million in 2000 to \$1.0 billion in 2002, we experienced net losses in 2001 which continued through 2003. This was due primarily to the global economic downturn, the dot-com bubble, the September 11, 2001 attacks and the business transformation we undertook to further strengthen TeleTech’s industry position and future competitiveness. The business transformation redefined our delivery model, reduced our cost structure and improved our competitive and financial position by:

- Migrating from a decentralized holding company to a centralized operating company to enhance financial and operating disciplines;

- Centralizing our technology infrastructure and migrating to a 100% IP-based delivery platform;
- Standardizing our global operational processes and applications;
- Automating and virtualizing our human capital needs primarily around talent acquisition, training and performance optimization;
- Rationalizing certain underperforming operations and reducing our selling, general and administrative expenses;
- Rationalizing or improving pricing or performance on certain underperforming client programs;
- Investing in sales and client account management;
- Investing in innovative new solutions to diversify revenue into higher margin offerings, including professional services, learning services and hosted service offerings which is offered as TeleTech OnDemand™ and that we refer to as “OnDemand”;
- Expanding delivery capabilities with expanded onshore, near-shore, offshore and work-from-home solutions;
- Reducing long-term debt by nearly \$120 million from 2003 to 2004 with existing cash balances and borrowings under our revolving credit facility; and
- Approving and executing a stock repurchase program.

As a result of the above business transformation, we returned to profitability in 2004. From 2005 to 2006, our year-over-year revenue grew 11.5% from \$1.1 billion to \$1.2 billion and diluted earnings per share grew 92% from \$0.38 to \$0.73. Our 2006 operating margin more than doubled from 2.9% in 2005 to 6.0% in 2006 and we ended the fourth quarter of 2006 with an operating margin of 8.6% and a return on invested capital (“ROIC”) of 21%. ROIC is defined as earnings before interest and taxes (“EBIT”) divided by average shareholders’ equity.

As of December 31, 2006, we had \$60.5 million in cash and cash equivalents and a debt to equity ratio of 20%. We generated \$29.2 million in free cash flow during 2006 and our cash flows from operations and borrowings under our revolving credit facility have enabled us to fund \$66 million in capital expenditures. Approximately 70% of our capital expenditures were related to growth primarily in offshore markets with the remaining 30% used for the maintenance of our embedded infrastructure.

Our improved financial performance resulted from strong growth both with new and existing clients across an expanding array of industry verticals, a 39% growth rate in offshore revenue and our achievement of \$90 million in cost improvements from mid-2003 through 2006.

On June 30, 2006, we acquired Direct Alliance Corporation (“DAC”), a provider of e-commerce, professional sales and account management solutions to Fortune 500 companies that sell into and maintains long-standing relationships with small and medium businesses. We acquired DAC for \$46.4 million in cash and used borrowings under our revolving credit facility to finance the acquisition. DAC’s annual revenues are approximately \$68 million and they contributed \$34.1 million in revenue to our consolidated results during the last six months of 2006. The acquisition was slightly accretive to our earnings during that period.

Since announcing our stock repurchase program in late 2001, the Board of Directors approved \$165 million of share repurchases. Since inception of the plan through December 31, 2006, we repurchased 13.2 million shares of common stock, or approximately 18% of our shares outstanding during that period, for \$115.7 million, leaving a remaining balance of \$49.3 million for future share repurchases.

## **Our Future Growth Goals and Strategy**

Our financial goals for 2007 are to reach a revenue run-rate of \$1.5 billion, an operating margin of 10% and an earnings before interest, taxes, depreciation and amortization (“EBITDA”) margin of 15% by the fourth quarter of 2007. We plan to achieve this by:

- Capitalizing on the favorable trends in the global outsourcing environment which include more companies:
  - Adopting or increasing BPO services;
  - Consolidating outsourcing providers with those that have a solid financial position, the capital resources to sustain a long-term relationship and that can provide globally diverse delivery capabilities across a broad range of solutions;
  - Modifying their approach to outsourcing based on total value delivered versus the lowest priced provider; and
  - Increasing their desire to better integrate front and back office processes.
- Deepening and broadening relationships with existing clients;
- Winning business with new clients and focusing on targeted high growth industry verticals;
- Continuing to diversify revenue into higher margin offerings such as professional services, talent acquisition, learning services and OnDemand;
- Increasing capacity utilization during peak and non-peak hours;
- Scaling our work-from-home initiative to increase operational flexibility; and
- Completing select acquisitions that extend our core BPO capabilities or vertical expertise.

## **Our Market Opportunity**

The global BPO industry is large and growing. Based on industry reports, we estimate the total market opportunity for BPO services is more than \$5 trillion.

The global BPO industry is large and growing. According to the International Data Corporation, the global BPO market was \$385 billion in 2005 and is projected to grow to \$618 billion in 2010, representing a 10% CAGR.

## **Our Business Description**

We help Global 1000 clients improve front and back office business processes while increasing customer satisfaction. We manage our clients’ outsourcing needs with the primary goal of delivering a high-quality customer experience while also reducing their total delivery costs.

Our solutions provide access to skilled people in 17 countries using standardized operating processes and a centralized delivery platform to:

- Design, implement and manage industry-specific end-to-end back office processes to achieve efficient and effective global service delivery for discrete or multiple back office requirements;
- Manage the customer lifecycle, from acquiring and on-boarding through support and retention;
- Support field sales teams and manage sales relationships with small and medium-sized businesses;
- Design, implement and manage e-commerce portals;
- Provide a suite of pre-integrated OnDemand customer management applications through a monthly license subscription;
- Offer infrastructure deployment, including the development of data and BPO Delivery Centers;

- License tools within our human capital suite including talent acquisition, learning services and performance optimization for use in clients' internal operations; and
- Offer professional consulting services in each of the above areas.

### **Our Competitive Strengths**

Entering a business services outsourcing relationship is typically a long-term strategic commitment for companies. The outsourced processes are usually complex and require a high degree of customization and integration with a client's core operations. Accordingly, our clients tend to enter long-term contracts which provide us with a more predictable revenue stream. In addition, given the significant transition costs to exit the relationship, we have very high levels of client retention given our operational excellence and ability to meet our clients' outsourcing objectives. As a result, our client retention in both 2005 and 2006 was 93%.

Clients select us because of our:

- Industry reputation and our position as one of the largest industry providers with 25 years of expertise in delivering complex BPO solutions across targeted industries;
- Ability to scale infrastructure and employees worldwide using globally deployed best practices to ensure a consistent, high-quality service;
- Ability to optimize the performance of our workforce through proprietary hiring, training and performance optimization tools; and
- Commitment to continued product and services innovation to further the strategic capabilities of our clients.

We believe that technological excellence, best operating practices and innovative human capital strategies that can scale globally are key elements to our continued industry leadership as described more fully below.

#### *Technological Excellence*

Over the past five years, we have measurably transformed our technology platform by moving to a secure, private 100% internet protocol ("IP") based infrastructure. This transformation has enabled us to centralize and standardize our worldwide delivery capabilities resulting in improved quality of delivery for our clients along with lower capital and information technology ("IT") operating costs.

The foundation of this platform is our six IP hosting centers known as TeleTech GigaPOPs<sup>®</sup>, which are located on four continents. These centers provide a fully integrated suite of voice and data routing, work force management, quality monitoring, storage and business analytic capabilities. This enables 'anywhere to anywhere,' real-time processing of our clients' business needs from any location around the globe and is the foundation for new, innovative offerings including OnDemand, TeleTech@Home and our suite of human capital solutions. This hub and spoke model enables us to provide our services at the lowest cost while increasing scalability, reliability, redundancy, asset utilization and the diversity of our service offerings.

Prior to this technology transformation, each of our Delivery Centers had a significant investment in disparate hardware and software maintained by on-site IT staff, which was costly to operate and maintain and did not provide the level of reliability or failover we now provide.

To ensure high end-to-end security and reliability of this critical infrastructure, we monitor and manage the TeleTech GigaPOPs 24 x 7, 365 days per year from several strategically located state-of-the-art Global Command Centers.

Our technology innovations have resulted in the filing of more than a dozen intellectual property patents.

### *Globally Deployed Best Operating Practices*

Globally deployed best operating practices assure that we can deliver a consistent, scalable, high-quality experience to our clients' customers from any of our 88 Delivery Centers or work-from-home associates around the world. Standardized processes include our approach to attracting, screening, hiring, training, scheduling, evaluating, coaching and maximizing associate performance to meet our clients' needs. We provide real-time reporting on performance across the globe to ensure consistency of delivery. In addition, this information provides valuable insight into what is driving customer inquiries enabling us to proactively recommend process changes to our clients to optimize their customer's experience.

### *Innovative Human Capital Strategies*

To effectively manage and leverage our human capital requirements we have developed a proprietary suite of business processes, software tools and client engagement guidelines that work together to improve performance for our clients while enabling us to reduce time to hire, decrease attrition and improve time-to-service and quality of performance.

The three primary components of our human capital platform — Talent Acquisition, Learning Services and Performance Optimization — combine to form a powerful and flexible management system to streamline and standardize operations across our global Delivery Centers. These three components work to allow us to make better hires, improve training quality and provide real-time feedback and incentives for performance.

Several of our clients have expressed interest in licensing all or parts of the above components and over time this will be an additional opportunity for us to diversify our revenue into higher margin offerings.

### **Innovative New Revenue Opportunities**

We continue to develop other new innovative services that leverage our investment in a centralized and standardized delivery platform to meet our clients' needs and we believe that these solutions will represent a growing percentage of our future revenue.

#### *OnDemand*

OnDemand delivers a fully-integrated suite of best-in-class customer management applications on a hosted (software as a service) basis, providing streamlined delivery center technology, knowledge and services. This allows our clients to empower their associates with the same technology and best practices we use internally, on a monthly subscription license model. With OnDemand, there is no need for our clients to license software, purchase on-premise hardware, or staff up to provide ongoing technology support.

Our OnDemand solutions are easy to implement and scale seamlessly to support business growth, encompassing the full breadth of customer management and BPO operations including: Interaction Routing, Self-Service, Employee Desktop Management, Business Intelligence and Performance Management. Because they are based on our rigorous first-hand use, our hosted services are proven, reliable, scalable and continually refined and expanded.

#### *TeleTech@Home*

Our dispersed workforce solution enables employees to work out of their home while accessing the same proprietary training, workflow, reporting and quality tools as our Delivery Center associates. TeleTech@Home associates are TeleTech employees — not independent contractors — providing a strong cultural fit, seamless workforce control and high levels of job satisfaction. Our TeleTech@Home solution utilizes our highly scalable and centralized technical architecture and enables secure access, monitoring and reporting for our Global 1000 clients.

Features of the new TeleTech@Home offering include:

- Outstanding quality, low churn, high call resolution and superior sales and customer care performance;

- Greater flexibility and scalability through the benefit of dispersed geography and proven processes;
- Ability to reach a new and talented employee pool that includes licensed and certified professionals in a variety of industries with multiple years of experience; and
- Access to a unique and flexible employee population that includes stay-at-home parents, workers with physical challenges that make office commuting undesirable, rural workers and workers in highly technical urban centers.

## **Clients**

Our client concentration has decreased as we continue to grow, and in 2006 we had one client that represented more than 10% of total revenue. Sprint Nextel (we contract with IBM, who contracts with Sprint Nextel) represented 16% of total revenue in 2006. Our top five and 10 clients represented 42% and 61% of total revenue, respectively.

Certain of our communications clients, which represent approximately 30% of our total annual revenue, also provide us with telecommunication services. We believe each of these supplier contracts is negotiated on an arms-length basis and may be negotiated at different times and with different legal entities. Expenditures under these supplier contracts represent less than one percent of total costs.

## **Competition**

We compete primarily with the in-house business processing operations of our current and potential clients. We also compete with certain companies that provide BPO services including: Accenture; Convergys Corporation; Computer Sciences Corporation; EDS; ExlService Holdings; IBM; People Support; SR.Teleperformance; Sykes Enterprises Incorporated and WNS Limited among others. We work with Accenture; Computer Sciences Corporation and IBM on a sub-contract basis and approximately 20% of our total revenue is generated from these system integrator relationships.

We compete primarily on the basis of our 25 years of experience, our global locations, our quality and scope of services, our speed and flexibility of implementation, our technological expertise, and our price and contractual terms. A number of competitors may have different capabilities and resources than ours. Additionally, niche providers or new entrants could capture a segment of the market by developing new systems or services that could impact our market potential.

## **Seasonality**

Historically, we experience a seasonal revenue lift in the fourth quarter related to higher volumes from clients primarily in the healthcare, package delivery and retail industry as they have seasonality in their business. Also, our operating margins in the first quarter are typically lower due to higher payroll-related taxes with our global workforce.

As discussed below, we earned a significant amount of revenue during the third and fourth quarters of 2005 from a short-term U.S. Government program to provide disaster relief services related to hurricanes in the U.S.

## **Database Marketing and Consulting Segment**

This segment represents 3% of total revenue and provides outsourced database and marketing services for automotive dealerships and manufacturers to generate and qualify leads, schedule, remind and follow up on customer service appointments. Other services include email campaign management, event marketing, Internet-based appointment setting, lead qualification and related customer acquisition and retention services utilizing email, direct mail and phone based services.

### *Markets and Clients*

This segment provides services to automotive dealers and manufacturers in the U.S. and Canada and has contracts with approximately 2,400 automobile dealers representing 27 different automotive brand

names. Additionally, they provide services directly to automobile manufacturers primarily related to national sales and service promotions.

### *Competition*

This segment competes with a variety of companies, including large national or multi-national companies and smaller regional or local companies. In addition, this segment competes with the in-house database marketing and consulting services of our automotive dealership clients.

### **Employees**

As of December 31, 2006, TeleTech had approximately 47,000 employees in 17 countries. Approximately 83% of these employees held full-time positions and 76% were located outside of the U.S. Our employees in Spain are subject to a collective bargaining agreement mandated under national labor laws, which expired on December 31, 2006. A new collective bargaining agreement is currently being negotiated. The collective bargaining agreement in Spain covers approximately 3,300 employees. We have not experienced any significant work stoppages with our ongoing business. We believe that our relations with our employees and unions are satisfactory.

### **Patents and Trademarks**

Our trademarks include, among others, TELETECH®, the TELETECH GLOBE Design, TELETECH GIGAPOP®, HIREPOINT®, EXPERT IN-SITE®, TELETECH GLOBAL VENTURES®, TOTAL DELIVERED VALUE® and YOUR CUSTOMER MANAGEMENT PARTNER®. We believe that several of our trademarks are of material importance. None of the material trademarks are of limited duration and we believe our intellectual property is adequately protected in customary fashion under applicable law. We have applied for, and will continue to apply for, in the U.S. and foreign countries, patents to protect the inventions and technologies developed by or for us. Fourteen provisional and utility patent applications for Company inventions (processes and technologies) are currently pending before the U.S. Patent and Trademark Office, with several more in progress and international filing rights reserved. While we currently utilize these processes and technologies in the conduct of our business, we do not believe our competitiveness and market share are dependent on the ultimate disposition of our patent applications.

### **Our Corporate Information**

Our principal executive offices are located at 9197 South Peoria Street, Englewood, Colorado 80112 and the telephone number at that address is (303) 397-8100. Electronic copies of our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and current Reports on Form 8-K are available free of charge by visiting the "Investors" section of our website at <http://www.teletech.com>. These reports are posted as soon as reasonably practicable after they are electronically filed with, or furnished to, the Securities and Exchange Commission ("SEC"). In addition, we will provide electronic or paper copies of our SEC filings, free of charge, upon request.

## **ITEM 1A. RISK FACTORS**

You should not construe the following cautionary statements as an exhaustive list. We cannot always predict what factors would cause actual results to differ materially from those indicated in our forward-looking statements. All cautionary statements should be read as being applicable to all forward-looking statements wherever they appear. We do not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking events discussed herein might not occur.

Forward-looking information may prove to be inaccurate. Some of the information presented in this Annual Report on Form 10-K constitutes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, statements that include terms such as "may," "will," "intend," "anticipate," "estimate," "expect," "continue," "believe," "plan," or the like, as well as all statements that are not historical facts. Forward-looking statements are inherently subject to risks and uncertainties that could cause actual results to differ

materially from current expectations. Although we believe our expectations are based on reasonable assumptions within the bounds of our knowledge of our business and operations, there can be no assurance that actual results will not differ materially from expectations. Factors that could cause actual results to differ from expectations or have a material adverse effect upon our business are as follows.

#### **Our Revenues are Generated from a Limited Number of Clients**

We rely on strategic, long-term relationships with large, global companies in targeted industries. As a result, we derive a substantial portion of our revenue from relatively few clients. Additionally, client consolidations could result in a loss of clients. There can be no assurance that we will not become more dependent on a few significant clients, that we will be able to retain any of our largest clients, that the volumes or profit margins of our most significant programs will not be reduced, or that we would be able to replace such clients or programs with clients or programs that generate comparable revenue and profits.

#### **Our Business May be Affected by the Success of Our Clients**

In substantially all of our client programs, we generate revenue based, in large part, on the amount of time our associates devote to our clients' customers. Consequently, the amount of revenue generated from any particular client program is dependent upon consumers' interest in and use of our client's products and/or services. There can be no assurance that our clients will continue to market products and services or develop new products and services that require them to use our services.

#### **Our Financial Results May be Adversely Impacted by the Global Economy**

Our ability to enter into new multi-year contracts with large clients may be impacted by the general macroeconomic environment in which our clients and their customers operate. Weakening economic conditions, both global and local in nature, could result in increased sales cycles, delays in finalizing new business opportunities and slower growth and reduced revenue from existing contracts. An economic downturn could negatively impact the financial condition of our clients, thereby increasing our risk of not receiving payment for services. There can be no assurance that weakening economic conditions or acts of terrorism throughout the world will not adversely impact our results of operations and/or financial position.

#### **Our Business is Subject to Federal, State and International Regulations**

Changes in U.S. federal, state and international outsourcing requirements, restrictions and disclosures may affect the sale of our services, including expansion of overseas operations. In the U.S., some of our services must comply with various federal and state requirements and regulations regarding the method and practices of placing outbound telephone calls. There can be no assurance that changes in these regulations and requirements, or new restrictive regulations and requirements, will not slow growth of these services or require us to incur substantial costs.

#### **Our Success is Subject to the Terms of Our Contracts**

Most of our contracts do not ensure that we will generate a minimum level of revenue and the profitability of each client program may fluctuate, sometimes significantly, throughout the various stages of a program. Our objective is to sign multi-year contracts with our clients. However, our contracts generally enable the clients to terminate the contract or reduce customer interaction volumes. Our larger contracts generally require the client to pay a contractually agreed amount in the event of early termination. Additionally, certain contracts have performance-related bonus and/or penalty provisions, whereby the client may pay us a bonus or we may have to issue a credit based upon our ability to meet agreed upon performance metrics. There can be no assurance that we will be able to collect early termination fees, avoid performance penalties, or earn performance bonuses.

#### **Our Business May be Affected by Our Ability to Obtain Financing**

From time to time, we may need to obtain debt or equity financing for capital expenditures, for payment of existing obligations, or to replenish cash reserves. Additionally, our existing debt agreements require us to comply with certain financial covenants. There can be no assurance that we will be able to obtain debt

or equity financing, or that any such financing would be on terms acceptable to us. There can be no assurance that we will be able to meet the financial covenants under our debt agreements or, in the event of noncompliance, will be able to obtain waivers or amendments from the lenders.

### **Our Business May be Affected by Risks Associated with International Operations and Expansion**

An important component of our growth strategy is continued international expansion. There are certain risks inherent with conducting international business including, but not limited to, management of personnel overseas, longer payment cycles, difficulties in accounts receivable collections, difficulties in complying with foreign laws, unexpected changes in regulatory requirements, political and social instability and potentially adverse tax consequences. Any one or more of these or other factors could have a material adverse effect on our international operations and, consequently, on our business, results of operations, or financial condition. There can be no assurance that we will be able to manage our international operations successfully.

### **Our Financial Results May be Impacted by Our Ability to Find New Locations**

Our future success will be dependent upon being able to find cost effective locations in which to operate, both domestically and internationally. There is no assurance that we will be able to find cost effective locations, obtain favorable lease terms and build or retrofit facilities in a timely or economic manner.

### **Our Financial Results May be Adversely Affected by Increases in Business Costs**

Some of our larger contracts allow us to increase our service fees if and to the extent certain cost or price indices increase. The majority of our expenses are payroll and payroll-related, which includes healthcare costs. Over the past several years, healthcare costs have increased at a rate much greater than that of general cost or price indices. Increases in our service fees that are based upon increases in cost or price indices may not fully compensate us for increases in labor and other costs incurred in providing services. There can be no assurance that we will be able to recover increases in our costs through increased service fees.

### **Our Financial Results Depend on Our Ability to Manage Capacity Utilization**

Our profitability is influenced significantly by our Delivery Center capacity utilization. We attempt to maximize utilization. However, because the majority of our business is inbound from customer initiated encounters, we have significantly higher utilization during peak (weekday) periods than during off-peak (night and weekend) periods. We have experienced periods of idle capacity, particularly in our Multi-Client Delivery Centers. Historically, we experience idle peak period capacity upon opening a new Delivery Center or termination or completion of a large client program. On a quarterly basis, we assess the expected long-term capacity utilization of our Delivery Centers. We may consolidate or close underperforming Delivery Centers in order to maintain or improve targeted utilization and margins. In the event we close Delivery Centers in the future, we may be required to record restructuring or impairment charges, which could adversely impact our results of operations. There can be no assurance that we will be able to achieve or maintain optimal Delivery Center capacity utilization.

### **Our Business Operates in a Highly Competitive Market**

The market in which we operate is fragmented and highly competitive and competition may intensify in the future. We compete with small firms offering specific applications, divisions of large entities, large independent firms and, most significantly, the in-house operations of clients or potential clients. A number of competitors may develop greater capabilities and resources than ours. Because our primary competitors are the in-house operations of existing or potential clients, our performance and growth could be adversely affected if our existing or potential clients decide to provide in-house business processing services for customer care they currently outsource, or retain or increase their in-house business processing services and product support capabilities. In addition, competitive pressures from current or future competitors also could cause our services to lose market acceptance or result in significant price erosion, which could have a material adverse effect upon our business, results of

operations and financial condition. There can be no assurance that additional competitors, some with greater resources than ours, will not enter our market.

### **Our Future Success Requires Continued Growth**

Continued future growth will depend on a number of factors, including our ability to: (i) initiate, develop and maintain new client relationships; (ii) expand existing client programs; (iii) staff and equip suitable Delivery Center facilities in a timely manner; and (iv) develop new solutions and enhance existing solutions we provide to our clients. There can be no assurance that we will be able to effectively manage expanded operations or maintain our profitability.

### **Our Financial Results May be Affected by Rapidly Changing Technology**

Our business is highly dependent on our computer and telecommunications equipment and software capabilities. Our failure to maintain our technological capabilities or to respond effectively to technological changes could have a material adverse effect on our business, results of operations, or financial condition. Our continued growth and future profitability will be highly dependent on a number of factors, including our ability to: (i) expand our existing solutions offerings; (ii) achieve cost efficiencies in our existing Delivery Center operations; and (iii) introduce new solutions that leverage and respond to changing technological developments. Our ability to effectively market and implement software solutions developed by our Database Marketing and Consulting segment, including recoverability of capitalized costs based on estimated future cash flows, is a factor in our future success. There can be no assurance that technologies or services developed by our competitors will not render our products or services non-competitive or obsolete, that we can successfully develop and market any new services or products, that any such new services or products will be commercially successful, or that the integration of new technological capabilities will achieve their intended cost reductions.

### **Our Success Depends on Key Personnel**

Our success will depend upon our ability to recruit, hire and retain experienced executive personnel who can successfully execute our business plans. There can be no assurance that we will be able to hire, motivate and retain highly effective executive employees on economically feasible terms who can successfully execute our business plans.

### **Our Business is Dependent on Our Ability to Maintain Our Workforce**

Our success is largely dependent on our ability to recruit, hire, train and retain qualified employees. Our industry is labor-intensive and experiences high employee turnover. A significant increase in the employee turnover rate could increase recruiting and training costs, thereby decreasing operating effectiveness and productivity. Also, if we obtain several significant new clients or implement several new, large-scale programs, we may need to recruit, hire and train qualified personnel at an accelerated rate. We may not be able to continue to hire, train and retain sufficient qualified personnel to adequately staff new BPO service programs. In addition, certain Delivery Centers are located in geographic areas with relatively low unemployment rates, which could make it more difficult and costly to hire qualified personnel. There can be no assurance that we will be able maintain our workforce at necessary levels.

### **Our Success May be Affected by Our Ability to Complete and Integrate Acquisitions and Joint Ventures**

We may pursue strategic acquisitions of companies with services, technologies, industry specializations, or geographic coverage that extend or complement our existing business. We may face increased competition for acquisition opportunities, which may inhibit our ability to complete suitable acquisitions on favorable terms. We may pursue strategic alliances in the form of joint ventures and partnerships, which involve many of the same risks as acquisitions as well as additional risks associated with possible lack of control if we do not have a majority ownership position. There can be no assurance that we will be successful in integrating acquisitions or joint ventures into our existing businesses, or that any acquisition or joint venture will enhance our business, results of operations, or financial condition.

## **Our Business Depends on Uninterrupted Service to Clients**

Our operations are dependent upon our ability to protect our computer and telecommunications equipment and software systems against damage or interruption from fire, power loss, cyber attacks, telecommunications interruption or failure, natural disaster and other similar events. Our operations may also be adversely affected by damage to our facilities resulting from fire, natural disaster, or other events. Additionally, severe weather can cause interruption in our ability to deliver our services, such as when our employees cannot attend work, resulting in a loss of revenue. In the event we experience a temporary or permanent interruption at one or more of our locations (including our corporate headquarters building), through the reasons noted above or otherwise, our business could be materially adversely affected and we may be required to pay contractual damages or face the loss of certain clients altogether. We maintain property and business interruption insurance. However, there can be no assurance that such insurance will adequately compensate us for any losses we may incur.

## **Our Financial Results May Experience Variability**

We experience quarterly variations in operating results because of a variety of factors, many of which are outside our control. In addition, we make decisions regarding staffing levels, investments and other operating expenditures based on our revenue forecasts. If our revenue is below expectations in any given quarter, our operating results for that quarter could be materially adversely affected. There can be no assurance that future quarterly or annual operating results will reflect past operating results.

## **Our Financial Results May be Impacted by Foreign Currency Exchange Risk**

We serve an increasing number of our clients from Delivery Centers in other countries including Argentina, Brazil, Canada, India, Malaysia, Mexico and the Philippines. Contracts with these clients are typically priced in the currency of the contracting subsidiary while the costs incurred to operate these Delivery Centers are denominated in the foreign currency of the operating subsidiary, thereby representing a foreign currency exchange risk to us.

Although we enter into financial hedge instruments for certain foreign currencies, we do not hedge 100% of these risks. If the functional currency of the contracting subsidiary weakens, the operating income of the operating subsidiary Delivery Centers, once translated into the functional currency of the operating subsidiary, decreases in comparison to prior years to the extent we have not hedged 100%.

In addition, if the U.S. dollar was to materially weaken against any of the functional currencies of our subsidiaries, our financial results may be adversely impacted. While our hedging strategy effectively offsets a portion of these foreign currency changes during 2006, there can be no assurance that we will continue to successfully hedge this foreign currency exchange risk or that the U.S. dollar will not materially weaken.

## **Our Financial Results May be Adversely Impacted by Our Database Marketing and Consulting Segment**

Prior to 2005, our Database Marketing and Consulting segment had historically experienced high levels of profitability. During 2005 and 2006, the segment reported an operating loss. We have plans to return this segment to profitability. There can be no assurance that we will be successful in executing our plans to return this segment to prior levels of profitability. We have approximately \$13.4 million of goodwill recorded for this segment whose ultimate recoverability is dependent upon the profitability of this segment. Our results of operations or financial condition may be adversely impacted if we are unable to return that segment to profitability.

## ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

## ITEM 2. PROPERTIES

Our corporate headquarters are located in Englewood, Colorado. In February 2003, we purchased our corporate headquarters building, including furniture and fixtures, for \$38.3 million, which consists of approximately 264,000 square feet of office space.

As of December 31, 2006, excluding Delivery Centers we have exited, we operated 88 Delivery Centers that are classified as follows:

- *Multi-Client Center* — We lease space for these centers and serve multiple clients in each facility;
- *Dedicated Center* — We lease space for these centers and dedicate the entire facility to one client; and
- *Managed Center* — These facilities are leased or owned by our clients and we manage these sites on behalf of our clients in accordance with facility management contracts.

As of December 31, 2006, our Delivery Centers were located in the following countries:

	<u>Multi-Client Centers</u>	<u>Managed Centers</u>	<u>Dedicated Centers</u>	<u>Total Number of Delivery Centers</u>
Argentina	5	2	—	7
Australia	4	2	1	7
Brazil	2	3	—	5
Canada	4	1	7	12
China	1	1	—	2
England	—	1	—	1
Germany	—	1	—	1
India	2	—	—	2
Malaysia	1	—	—	1
Mexico	2	—	—	2
New Zealand	1	2	—	3
Northern Ireland	1	—	—	1
Philippines	8	—	—	8
Scotland	—	3	1	4
Singapore	1	1	—	2
Spain	5	4	—	9
United States	<u>6</u>	<u>10</u>	<u>5</u>	<u>21</u>
Total	<u>43</u>	<u>31</u>	<u>14</u>	<u>88</u>

Our Database Marketing and Consulting segment leases space for its corporate headquarters in San Diego, California.

The leases for our Delivery Centers have remaining terms ranging from approximately one to 14 years and generally contain renewal options. We believe that our existing Delivery Centers are suitable and adequate for our current operations and we have plans to build additional centers to accommodate future business.

### ITEM 3. LEGAL PROCEEDINGS

From time to time we may be involved in claims or lawsuits that arise in the ordinary course of business. Accruals for claims or lawsuits have been provided for to the extent that losses are deemed both probable and estimable. Although the ultimate outcome of these claims or lawsuits cannot be ascertained, it is our opinion, based on present information and advice received from counsel, that the disposition or ultimate determination of such claims or lawsuits will not have a material adverse effect on our Company.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of our stockholders during the fourth quarter of our fiscal year ended December 31, 2006.

### ITEM 4A. EXECUTIVE OFFICERS OF TELETECH HOLDINGS, INC.

Set forth below are the names, position and ages, as of December 31, 2006, of our executive officers:

<u>Name</u>	<u>Position</u>	<u>Age</u>	<u>Date Position Assumed</u>
Kenneth D. Tuchman(1)	Chairman and Chief Executive Officer	47	2001
James E. Barlett(2)	Vice Chairman	63	2001
Brian Delaney(3)	Executive Vice President of Global Service Delivery	49	2005
Kamalesh Dwivedi(4)	Executive Vice President and Chief Information Officer	51	2003
John Simon(5)	Executive Vice President of Global Human Capital	42	2001
Alan Schutzman(6)	Executive Vice President, General Counsel and Secretary	50	2006
John R. Troka, Jr.(7)	Vice President of Finance — Global Operations and Interim Chief Financial Officer	44	2006

There are no arrangements or understandings between any executive officer and another person pursuant to which such executive officer was selected as an officer.

- (1) Mr. Tuchman founded TeleTech's predecessor company in 1982 and has served as the Chairman of the Board of Directors since TeleTech's formation in 1994. Mr. Tuchman served as the Company's President and Chief Executive Officer from the Company's inception until October 1999. In March 2001, Mr. Tuchman resumed the position of Chief Executive Officer. Mr. Tuchman is also a member of the Board of Directors for the Center for Learning and Leadership.
- (2) Mr. Barlett was elected to the Board of Directors of TeleTech in February 2000 and has served as Vice Chairman of TeleTech since October 2001. Before joining TeleTech as Vice Chairman, Mr. Barlett served as the President and Chief Executive Officer of Galileo International, Inc. from 1994 to 2001, was elected Chairman in 1997 and served until 2001. Prior to joining Galileo International, Inc., Mr. Barlett served as Executive Vice President of Worldwide Operations and Systems for MasterCard International Corporation, where he was also a member of the MasterCard International Operations Committee. Previously, Mr. Barlett was Executive Vice President of Operations for NBD Bancorp, Vice Chairman of Cirrus, Inc. and a partner with Touche Ross and Co., currently known as Deloitte and Touche. Mr. Barlett also serves on the Board of Directors of Korn/Ferry International, Covansys Corporation and Celanese Corporation.
- (3) Mr. Delaney joined TeleTech as Vice President of Technology in December, 2002 and moved into the Senior Vice President, North America Operations position in January, 2004. Since October, 2005, Mr. Delaney has been operating as the Executive Vice President of Global Service Delivery. Mr. Delaney is a member of the Board of Trustees for the National 4-H Council.

- (4) Mr. Dwivedi joined TeleTech in August, 2003 as Executive Vice President and Chief Information Officer (“CIO”). Prior to joining TeleTech, Mr. Dwivedi was Vice President and CIO of ADC Telecommunications, a global manufacturer of broadband equipment to the telecom and cable industries. Prior to ADC, he was the CIO of Scientific-Atlanta, now a division of Cisco and a global manufacturer and supplier of integrated technology products in video, voice and data to telecom and cable industries.
- (5) Mr. Simon joined TeleTech in 1999 and served as TeleTech’s Associate General Counsel. In 2001 he became Senior Vice President of Global Human Capital. Mr. Simon also temporarily served as TeleTech’s interim General Counsel. Beginning in October, 2005, Mr. Simon was promoted to Executive Vice President of Global Human Capital. Prior to joining TeleTech, Mr. Simon was a partner at the New York law firm Hallenbeck, Lascell, Norris and Heller. Mr. Simon’s private law practice focused on litigating employment and commercial matters, as well as business counseling for institutional clients. Mr. Simon holds an undergraduate degree from Colorado College and a law degree from Georgetown University.
- (6) Mr. Schutzman joined TeleTech in July 2006 as Executive Vice President, General Counsel and Secretary. From September 2003 through March 2006, Mr. Schutzman was Senior Vice President, General Counsel and Secretary of Concord Camera Corp. From January 2001 until September 2001, he served as Associate General Counsel of Jacuzzi Brands, Inc. (“Jacuzzi”) and Vice President, Associate General Counsel and Assistant Secretary of Jacuzzi from September 2001 through September 2003. During the Fall 2005 Semester, Mr. Schutzman served as an Adjunct Professor of Law at the Shepard Broad Law Center, Nova Southeastern University, in Fort Lauderdale, Florida where he taught a corporate workshop on mergers and acquisitions.
- (7) Mr. Troka was named TeleTech’s Interim Chief Financial Officer in August 2006 and has served as TeleTech’s Vice President of Global Finance since joining the company in 2002. Prior to joining TeleTech, Mr. Troka was Vice President of Finance for Qwest Communications, formerly known as US West Communications.

## PART II

### ITEM 5. MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is traded on the NASDAQ National Market under the symbol “TTEC.” The following table sets forth the range of the high and low sales prices per share of the common stock for the quarters indicated as reported on the NASDAQ National Market:

	High	Low
First Quarter 2006 . . . . .	\$13.01	\$10.96
Second Quarter 2006 . . . . .	\$13.79	\$11.03
Third Quarter 2006 . . . . .	\$15.95	\$10.90
Fourth Quarter 2006 . . . . .	\$23.97	\$14.94
First Quarter 2005 . . . . .	\$13.04	\$ 9.08
Second Quarter 2005 . . . . .	\$12.94	\$ 7.34
Third Quarter 2005 . . . . .	\$10.02	\$ 7.67
Fourth Quarter 2005 . . . . .	\$12.56	\$ 9.83

As of February 1, 2007, there were 70,137,732 shares of common stock outstanding, held by stockholders of record.

We have never declared or paid any dividends on our common stock and we do not expect to do so in the foreseeable future.

## Securities Authorized for Issuance Under Equity Plans

This item is discussed in Note 17 to the Consolidated Financial Statements.

### Stock Repurchase Program

In November 2001, the Board of Directors ("Board") authorized a stock repurchase program to repurchase up to \$5 million of our common stock. That plan was subsequently amended by the Board resulting in the authorized repurchase amount increasing to \$165 million. During the three months ended December 31, 2006, we purchased 126,900 shares for \$1.9 million. During the year ended December 31, 2006, we purchased 1.3 million shares for \$16.6 million. From inception of the program through December 31, 2006, we have purchased 13.2 million shares for \$115.7 million, leaving \$49.3 million remaining under the repurchase program as of December 31, 2006. The program does not have an expiration date.

Following is a summary of issuer purchases of equity securities for the fourth quarter of 2006:

<u>Period</u>	<u>Total Number of Shares Purchased (000's)</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (000's)</u>	<u>Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (000's)</u>
October 1, 2006 - October 31, 2006	126,900	\$15.19	126,900	\$49,341
November 1, 2006 - November 30, 2006	—	\$ —	—	\$49,341
December 1, 2006 - December 31, 2006	—	\$ —	—	\$49,341
	<u>126,900</u>	\$15.19	<u>126,900</u>	\$49,341

## ITEM 6. SELECTED FINANCIAL DATA

The following selected financial data should be read in conjunction with Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and the Consolidated Financial Statements and the related notes appearing elsewhere in this report.

	Year Ended December 31,				
	2006	2005	2004	2003	2002
<b>Statement of Operations Data</b>

<b>Balance Sheet Data</b>					
Total assets	\$ 658,716	\$ 522,172	\$ 496,795	\$ 554,816	\$ 539,583
Total long-term liabilities	\$ 107,417	\$ 61,339	\$ 166,378	\$ 120,370	\$ 88,148

- (1) Includes the following items: a \$32.8 million non-cash impairment loss related to property, plant and equipment in the U.S., Spain and Argentina; \$6.3 million of restructuring charges related to the termination of approximately 400 employees; a \$1.2 million loss on the closure of several Delivery Centers and a \$1.9 million charge related to the early termination of a property lease.
- (2) Includes a \$2.3 million loss related to acquiring the remaining common stock of Enhansiv Holdings, Inc. ("EHI").
- (3) Reflects the impairment of goodwill upon adoption of Statement of Financial Accounting Standards ("SFAS") No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142").
- (4) Includes the following items: \$7.0 million charge related to the impairment of property and equipment in connection with SFAS No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"); a \$5.6 million charge related to a reduction in force and facility exit charges in connection with SFAS No. 146 "Accounting for Costs Associated with Exit or Disposal Activities" ("SFAS 146"); and a \$1.9 million benefit related to revised estimates of restructuring charges.

- (5) Includes a \$30.9 million charge primarily for the write-off and impairment of deferred tax assets.
- (6) Includes the following items: \$2.6 million charge related to the impairment of property and equipment in connection with SFAS 144; a \$2.1 million charge related to a reduction in workforce and facility exit charges under SFAS 146; and a \$1.9 million reversal of part of the sales and use tax liability.
- (7) Includes the following items: \$7.6 million one-time charge related to restructuring of our long-term debt; and a \$2.8 million one-time charge related to the termination of an interest rate swap agreement.
- (8) Includes a \$2.0 million benefit due to revised estimates of self-insurance accruals.
- (9) Includes the following items: a \$2.1 million charge related to the impairment of property and equipment in connection with SFAS 144; a \$2.1 million charge related to reductions in force; a \$2.0 million charge related to facility exit charges in connection with SFAS 146; a \$0.6 million impairment loss related to a decision to exit a lease early and to discontinue use of certain software; a \$1.0 million benefit due to revised estimates of self-insurance accrual; and a \$0.5 million benefit related to revised estimates of restructuring and impairment charges.
- (10) Includes a \$1.0 million benefit due to a litigation settlement.
- (11) Includes the following items: a \$1.4 million benefit due to the reversal of income tax valuation allowance for Argentina; a \$1.4 million benefit due to the reversal of income tax valuation allowance for Brazil; a \$9.9 million benefit due to the reversal of U.S. income tax valuation allowance; and a \$3.7 million charge related to the repatriation of foreign earnings under a Qualified Domestic Reinvestment Plan.
- (12) Includes the following items: a \$1.1 million charge related to reductions in force; a \$0.8 million charge related to facility exit costs in connection with SFAS 146; \$0.6 million charge related to the impairment of property and equipment in connection with SFAS 144; and a \$3.6 million benefit due to revised estimates of self-insurance accruals.
- (13) Includes the following items: a \$4.5 million benefit due to the reversal of income tax valuation allowance for Spain; a \$1.2 million benefit due to the reversal of income tax valuation allowance for Argentina; and a \$3.3 million benefit due to the EHI loss carryforward.

## **ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

### **Introduction**

This Management's Discussion and Analysis of Financial Condition and Results of Operations contains certain forward-looking statements that involve risks and uncertainties. The projections and statements contained in these forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements.

All statements not based on historical fact are forward-looking statements that involve substantial risks and uncertainties. In accordance with the Private Securities Litigation Reform Act of 1995, following are important factors that could cause our actual results to differ materially from those expressed or implied by such forward-looking statements, including but not limited to the following: our belief that we are continuing to see strong demand for our services and that sales cycles are shortening; risks associated with successfully integrating DAC which we acquired on June 30, 2006 and achieving anticipated future revenue growth, profitability and synergies; estimated revenue from new, renewed and expanded client business as volumes may not materialize as forecasted or be sufficient to achieve our Business Outlook; achieving continued profit improvement in our International BPO operations; the ability to close and ramp new business opportunities that are currently being pursued or that are in the final stages with existing and/or potential clients in order to achieve our Business Outlook; our ability to execute our growth plans, including sales of new products (such as OnDemand); our ability to achieve our year-end 2007 financial

goals, including those set forth in our Business Outlook; the possibility of our Database Marketing and Consulting segment not increasing revenue, lowering costs, or returning to profitability resulting in an impairment of its \$13.4 million of goodwill; the possibility of lower revenue or price pressure from our clients experiencing a business downturn or merger in their business; greater than anticipated competition in the BPO services market, causing adverse pricing and more stringent contractual terms; risks associated with losing or not renewing client relationships, particularly large client agreements, or early termination of a client agreement; the risk of losing clients due to consolidation in the industries we serve; consumers' concerns or adverse publicity regarding our clients' products; our ability to find cost effective locations, obtain favorable lease terms and build or retrofit facilities in a timely and economic manner; risks associated with business interruption due to weather, pandemic, or terrorist-related events; risks associated with attracting and retaining cost-effective labor at our Delivery Centers; the possibility of additional asset impairments and restructuring charges; risks associated with changes in foreign currency exchange rates; economic or political changes affecting the countries in which we operate; changes in accounting policies and practices promulgated by standard setting bodies; and new legislation or government regulation that impacts the BPO and customer management industry.

### **Executive Overview**

We serve our clients through two primary businesses, BPO and Database Marketing and Consulting. Our BPO business provides outsourced business process, customer management and marketing services for a variety of industries through Delivery Centers throughout the world and represents approximately 97% of total revenue. When we begin operations in a new country, we determine whether the country is intended to primarily serve U.S. based clients, in which case we include the country in our North American BPO segment, or if the country is intended to serve both domestic clients from that country and U.S. based clients, in which case we include the country in our International BPO segment. This is consistent with our management of the business, internal financial reporting structure and operating focus. Operations for each segment of our BPO business are conducted in the following countries:

#### North American BPO

United States  
Canada  
India  
Philippines

#### International BPO

Argentina  
Australia  
Brazil  
China  
England  
Germany  
Malaysia  
Mexico  
New Zealand  
Northern Ireland  
Scotland  
Singapore  
Spain

On June 30, 2006, we acquired 100 percent of the outstanding common shares of DAC. DAC is a provider of outsourced direct marketing services to third parties in the U.S. and its acquisition is consistent with our strategy to grow and focus on providing outsourced marketing, sales and BPO solutions to large multinational clients. DAC is included in our North American BPO segment. The acquisition of DAC contributed approximately \$34.1 million of revenue and was slightly accretive to earnings during the last six months of 2006, which were the first six months of combined operations.

Database Marketing and Consulting provides outsourced database management, direct marketing and related customer acquisition and retention services for automobile dealerships and manufacturers.

See Note 3 to the Consolidated Financial Statements for additional discussion regarding our preparation of segment information.

## *BPO Services*

The BPO business generates revenue based primarily on the amount of time our associates devote to a client's program. We primarily focus on large global corporations in the following industries; automotive, communications and media, financial services, healthcare, government, logistics, retail, technology and travel. Revenue is recognized as services are provided. The majority of our revenue is from multi-year contracts and we expect it will continue to be. However, we do provide certain client programs on a short-term basis.

We have historically experienced annual attrition of existing client programs of approximately 7% to 15% of our revenue. Attrition of existing client programs during 2006 was 7%, excluding the short-term contract with the U.S. Government during the third and fourth quarters of 2005. However, during 2005, we experienced net attrition of existing client programs of 3% (attrition of existing client programs was greater than the expansion of existing client programs) whereas during 2006, excluding the short-term contract with the U.S. Government, we experienced net growth of existing client programs of 11% as expansion of existing client programs exceeded attrition of existing client programs. We believe this trend is attributable to our investment in an account management and operations team focused on client service.

Our invoice terms with clients typically range from 30 to 60 days, with longer terms in Europe.

The BPO industry is highly competitive. We compete primarily with the in-house business processing operations of our current and potential clients. We also compete with certain companies that provide BPO on an outsourced basis. Our ability to sell our existing services or gain acceptance for new products or services is challenged by the competitive nature of the industry. There can be no assurance that we will be able to sell services to new clients, renew relationships with existing clients, or gain client acceptance of our new products.

We have improved our revenue and profitability in both the North American and the International BPO segments by:

- Selling new business to existing clients;
- Securing new clients;
- Continuing to focus sales efforts on large, complex, Multi-Center BPO opportunities;
- Differentiating our products and services from those of our competitors by developing and offering new solutions to clients;
- Exploring merger and acquisition opportunities;
- Expansion of off-shore capabilities to support client growth;
- Increasing sales to absorb unused capacity in existing global Delivery Centers;
- Reducing costs and continued focus on cost controls; and
- Managing the workforce in our Delivery Centers in a cost-effective manner.

Our ability to enter into new or renew multi-year contracts, particularly large complex opportunities, is dependent upon the macroeconomic environment in general and the specific industry environments in which our clients operate. A weakening of the U.S. or the global economy could lengthen sales cycles or cause delays in closing new business opportunities.

Our potential clients typically obtain bids from multiple vendors and evaluate many factors in selecting a service provider including, among other factors, the scope of services offered, the service record of the vendor and price. We generally price our bids with a long-term view of profitability and, accordingly, we consider all of our fixed and variable costs in developing our bids. We believe that our competitors, at times, may bid business based upon a short-term view, as opposed to our longer-term view, resulting in a lower price bid. While we believe our clients' perceptions of the value we provide results in our being

successful in certain competitive bid situations, there are often situations where a potential client may prefer a lower cost.

Our industry is labor-intensive and the majority of our operating costs relate to wages, employee benefits and employment taxes. An improvement in the local or global economies where our Delivery Centers are located could lead to increased labor-related costs. In addition, our industry experiences high personnel turnover and the length of training time required to implement new programs continues to increase due to increased complexities of our clients' businesses. This may create challenges if we obtain several significant new clients or implement several new, large-scale programs and need to recruit, hire and train qualified personnel at an accelerated rate.

As discussed above, our profitability is influenced, in part, by the number of new or expanded client programs. We defer revenue for the initial training that occurs upon commencement of a new client contract ("Start-Up Training") if that training is billed separately to the client. Accordingly, the corresponding training costs, consisting primarily of labor and related expenses, are also deferred. In these circumstances, both the training revenue and costs are amortized straight-line over the life of the contract. In situations where Start-Up Training is not billed separately, but rather included in the production rates paid by the client over the life of the contract, no deferral is necessary as the revenue is recognized over the life of the contract and the associated training expenses are expensed as incurred. For the year ended December 31, 2006, we incurred \$0.4 million of training expenses for client programs for which we did not separately bill Start-Up Training.

The following summarizes the impact of the deferred Start-Up Training for the years ended December 31, 2006, 2005 and 2004 (amounts in thousands):

	Year Ended December 31,					
	2006		2005		2004	
	Revenue	Income from Operations	Revenue	Income from Operations	Revenue	Income from Operations
Amounts deferred due to new business	\$(9,432)	\$(5,224)	\$(6,583)	\$(3,371)	\$(3,139)	\$(1,858)
Amortization of prior period deferrals	5,418	2,785	1,921	839	3,154	1,714
Net increase (decrease) for the period	<u>\$(4,014)</u>	<u>\$(2,439)</u>	<u>\$(4,662)</u>	<u>\$(2,532)</u>	<u>\$ 15</u>	<u>\$ (144)</u>

As of December 31, 2006, we had \$7.3 million of net deferred Start-Up Training that will be amortized straight-line over the remaining life of the corresponding client contracts (approximately 24 months).

We may have difficulties managing the timeliness of launching new or expanded client programs and the associated internal allocation of personnel and resources. This could cause a decline or delay in recognition of revenues and an increase in costs, either of which could adversely affect our operating results. In the event we do not successfully expand our capacity or launch new or expanded client programs, we may be unable to achieve the revenue and profitability targets set forth in the Business Outlook section below.

Quarterly, we review our capacity utilization and projected demand for future capacity. In conjunction with these reviews, we may decide to consolidate or close under-performing Delivery Centers, including those impacted by the loss of a major client program, in order to maintain or improve targeted utilization and margins. In addition, because clients may request that we serve their customers from International Delivery Centers with lower prevailing labor rates, in the future we may decide to close one or more of our Delivery Centers, even though it is generating positive cash flow, because we believe the future profits from conducting such work outside the current Delivery Center may more than compensate for the one-time charges related to closing the facility.

Our profitability is significantly influenced by our ability to increase capacity utilization in our Delivery Centers. We attempt to minimize the financial impact resulting from idle capacity when planning the development and opening of new Delivery Centers or the expansion of existing Delivery Centers. As such, management considers numerous factors that affect capacity utilization, including anticipated

expirations, reductions, terminations, or expansions of existing programs and the potential size and timing of new client contracts that we expect to obtain. We continue to win new business with both new and existing clients. As a result, we expanded our capacity in 2006 by approximately 7,000 workstations in Argentina, Canada and the Philippines.

To respond more rapidly to changing market demands, to implement new programs and to expand existing programs, we may be required to commit to additional capacity prior to the contracting of additional business, which may result in idle capacity. This is largely due to the significant time required to negotiate and execute a client contract as we concentrate our marketing efforts toward obtaining large, complex BPO programs.

We internally target capacity utilization in our Delivery Centers at 85% to 90% of our available workstations. As of December 31, 2006, the overall capacity utilization in our Multi-Client Centers was 80%. The table below presents workstation data for our multi-client centers as of December 31, 2006 and 2005. Dedicated and Managed Centers (10,355 workstations) are excluded from the workstation data as unused workstations in these facilities are not available for sale. Our utilization percentage is defined as the total number of utilized production workstations compared to the total number of available production workstations. We may change the designation of shared or dedicated centers based on the normal changes in our business environment and client needs.

	December 31, 2006			December 31, 2005		
	<u>Total Production Workstations</u>	<u>In Use</u>	<u>% In Use</u>	<u>Total Production Workstations</u>	<u>In Use</u>	<u>% In Use</u>
North American BPO	13,137	10,362	79%	6,514	4,834	74%
International BPO	10,121	8,129	80%	9,447	6,695	71%
Total	<u>23,258</u>	<u>18,491</u>	80%	<u>15,961</u>	<u>11,529</u>	72%

As shown above, there was a significant increase in the total production workstations resulting from our growth plans (see discussion under BPO above), a corresponding increase in the number of production workstations in use and an increase in the utilization percentage.

#### *Database Marketing and Consulting*

The revenue from this segment is generated utilizing a database and contact system to promote the sales and service business of automobile dealership customers using targeted marketing solutions through the phone, mail, e-mail and the Web. As of December 31, 2006, our Database Marketing and Consulting segment had relationships with more than 2,400 automobile dealers representing 27 different automotive brand names. These contracts generally have terms ranging from month-to-month to 24 months. For a few major automotive manufacturers, the automotive manufacturer collects from the individual automobile dealers on our behalf. Our average collection period is 30 to 60 days. A combination of factors contributed to this segment generating a loss from operations of approximately \$15.4 million after corporate allocations for the year ended December 31, 2006.

For 2006, we modified our agreement with Ford (whose dealers represented approximately 47% of the revenue of our Database Marketing and Consulting segment for the year ended December 31, 2006), to provide services to Ford's automotive dealerships on a preferred basis, rather than on an exclusive basis. The new agreement gives us flexibility to customize service offerings and the ability to contract directly with Ford's dealerships under our defined terms and conditions. Primarily due to Ford offering a competing product, our dealer attrition rate has exceeded our new account growth in 2006, resulting in a significant decrease in revenue from the prior year.

The clients of our Database Marketing and Consulting segment, as well as our joint venture with Ford, come from the automotive industry. The U.S. automotive industry is currently reporting declining earnings, which may result in client losses, lower volumes, or additional pricing pressures on our operations.

As we work to implement the plans outlined above to return this segment to profitability, we anticipate this segment will incur a loss from operations in the first quarter of 2007 in the range of \$3.5 million to \$4.5 million.

In 2007, we plan to continue our focus on the following to return this segment to profitability:

- Diversifying our client base by establishing relations with new automotive manufacturers and dealer groups;
- Reducing our client attrition rate by improving customer service and increasing customer contact; and
- Continuing to manage costs through operational efficiencies.

#### *Overall*

As shown in the “Results of Operations” we have improved income from operations for our North American and International BPO segments. The increases are attributable to a variety of factors such as expansion of work on certain client programs, our multi-phased cost reduction plan, transitioning work on certain client programs to lower cost operating centers, increased capacity utilization and improving individual client program profit margins and/or eliminating such programs.

As we pursue merger and acquisition opportunities, it is possible that the contemplated benefits of any future acquisitions may not materialize within the expected time periods or to the extent anticipated. Critical to the success of our acquisition strategy in the future is the orderly, effective integration of acquired businesses into our organization. If this integration is unsuccessful, our business may be adversely impacted. There is also the risk that our valuation assumptions and models for an acquisition may be overly optimistic or incorrect.

#### **Critical Accounting Policies and Estimates**

Management’s discussion and analysis of its financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, sales and expenses as well as the disclosure of contingent assets and liabilities. We regularly review our estimates and assumptions. These estimates and assumptions, which are based upon historical experience and on various other factors believed to be reasonable under the circumstances, form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Reported amounts and disclosures may have been different had management used different estimates and assumptions or if different conditions had occurred in the periods presented. Below is a discussion of the policies that we believe may involve a high degree of judgment and complexity.

#### *Revenue Recognition*

For each client arrangement, we determine whether evidence of an arrangement exists, delivery of our service has occurred, the fee is fixed or determinable and collection is probable. If all criteria are met, we recognize revenue at the time services are performed. If any of these criteria are not met, revenue recognition is deferred until such time as all of the criteria are met.

Our BPO segments recognize revenue under three models:

*Production Rate* — Revenue is recognized based on the billable time or transactions of each associate, as defined in the client contract. The rate per billable time or transaction is based on a predetermined contractual rate. This contractual rate can fluctuate based on our performance against certain pre-determined criteria related to quality and performance.

*Performance-based* — Under performance-based arrangements, we are paid by our clients based on achievement of certain levels of sales or other client-determined criteria specified in the client contract. We recognize performance-based revenue by measuring our actual results against the

performance criteria specified in the contracts. Amounts collected from clients prior to the performance of services are recorded as customer advances.

*Hybrid*— Under hybrid models we are paid a fixed fee or production element as well as a performance-based element.

Certain client programs provide for increases or decreases to monthly billings based upon whether we meet or exceed certain performance criteria as set forth in the contract. Increases or decreases to monthly billings arising from such contract terms are reflected in revenue as earned or incurred.

Our Database Marketing and Consulting segment recognizes revenue when services are rendered. Most agreements require the billing of predetermined monthly rates. Where the contractual billing periods do not coincide with the periods over which services are provided, we recognize revenue straight-line over the life of the contract (typically six to 24 months).

From time-to-time, we make certain expenditures related to acquiring contracts (recorded as contract acquisition costs in the accompanying Consolidated Balance Sheets). Those expenditures are capitalized and amortized in proportion to the initial expected future revenue from the contract, which in most cases results in straight-line amortization over the life of the contract. Amortization of these costs is recorded as a reduction of revenue.

#### *Income Taxes*

We account for income taxes in accordance with SFAS No. 109 “Accounting for Income Taxes” (“SFAS 109”), which requires recognition of deferred tax assets and liabilities for the expected future income tax consequences of transactions that have been included in the Consolidated Financial Statements. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. When circumstances warrant, we assess the likelihood that our net deferred tax assets will more likely than not be recovered from future projected taxable income.

As required by SFAS 109, we continually review the likelihood that deferred tax assets will be realized in future tax periods under the more likely than not criteria. In making this judgment SFAS 109 requires that all available evidence, both positive and negative, should be considered to determine whether, based on the weight of that evidence, a valuation allowance is required. As of December 31, 2006, we had \$56.8 million of deferred tax assets (after an \$19.0 million valuation allowance) and net deferred tax assets (after deferred tax liabilities) of \$49.7 million related to the U.S. and international tax jurisdictions whose recoverability is dependent upon future profitability.

In the future, our effective tax rate could be adversely affected by several factors, many of which are outside of our control. Our effective tax rate is affected by the proportion of revenues and income before taxes in the various domestic and international jurisdictions in which we operate. Further, we are subject to changing tax laws, regulations and interpretations in multiple jurisdictions in which we operate, as well as the requirements, pronouncements and rulings of certain tax, regulatory and accounting organizations. We estimate our annual effective tax rate each quarter based on a combination of actual and forecasted results of subsequent quarters. Consequently, significant changes in our actual quarterly or forecasted results may impact the effective tax rate for the current or future periods.

The Financial Accounting Standards Board (“FASB”) recently issued Interpretation No. 48 “Accounting for Uncertainty in Income Taxes” (“FIN 48”), an interpretation of SFAS 109. FIN 48 will be effective for our 2007 fiscal year. See Note 1 and Note 10 to the Consolidated Financial Statements for a more complete description of the impact FIN 48 will have on our consolidated financial statements.

#### *Allowance for Doubtful Accounts*

We have established an allowance for doubtful accounts to reserve for uncollectible accounts receivable. Each quarter, management reviews the receivables on an account-by-account basis and assigns a

probability of collection. Management's judgment is used in assessing the probability of collection. Factors considered in making this judgment include, among other things, the age of the identified receivable, client financial condition, previous client payment history and any recent communications with the client.

#### *Impairment of Long-Lived Assets*

We evaluate the carrying value of our individual Delivery Centers in accordance with SFAS 144. SFAS 144 requires that a long-lived asset group be reviewed for impairment only when events or changes in circumstances indicate that the carrying amount of the long-lived asset group may not be recoverable. When the operating results of a Delivery Center have deteriorated to the point it is likely that losses will continue for the foreseeable future, or we expect that a Delivery Center will be closed or otherwise disposed of before the end of its estimated useful life, we select the Delivery Center for further review.

For Delivery Centers selected for further review, we estimate the probability-weighted future cash flows, using EBITDA (see "Presentation of Non-GAAP Measurements") as a surrogate for cash flows, resulting from operating the Delivery Center over its useful life. Significant judgment is involved in projecting future capacity utilization, pricing, labor costs and the estimated useful life of the Delivery Center. We do not subject to the same test Delivery Centers that have been operated for less than two years or those Delivery Centers that have been impaired within the past two years (the "Two Year Rule") because we believe sufficient time is necessary to establish a market presence and build a client base for such new or modified Delivery Centers in order to adequately assess recoverability. However, such Delivery Centers are nonetheless evaluated in case other factors would indicate an impairment had occurred. For impaired Delivery Centers, we write the assets down to their estimated fair market value. If the assumptions used in performing the impairment test prove insufficient, the fair market value estimate of the Delivery Centers may be significantly lower, thereby causing the carrying value to exceed fair market value and indicating an impairment had occurred.

The following table presents a sensitivity analysis of the impairment evaluation assuming that the future results were 10% less than the two-year forecasted EBITDA for all physical Delivery Centers containing Company assets (excluding India, which was impaired during 2006). As shown in the table below, the analysis indicates that an impairment of approximately \$3.4 million (an increase of \$0.4 million from the third quarter of 2006) would arise. However, for the Delivery Centers tested, the current probability-weighted projection scenarios indicated that impairment had not occurred as of December 31, 2006 (amounts in thousands, except number of Delivery Centers):

	<u>Net Book Value</u>	<u>Number of Delivery Centers</u>	<u>Additional Impairment Under Sensitivity Test</u>
<b>Delivery Centers tested based on the Two Year Rule</b>			
Positive cash flow in the period	\$54,082	50	\$ 681
Negative cash flow in the period	1,229	3	20
Subtotal	<u>\$55,311</u>	<u>53</u>	<u>\$ 701</u>
<b>Delivery Centers not tested based on the Two Year Rule</b>			
Positive cash flow in the period	\$27,400	11	\$ —
Negative cash flow in the period	9,519	5	2,733
Subtotal	<u>\$36,919</u>	<u>16</u>	<u>\$2,733</u>
<b>Total</b>			
Positive cash flow in the period	\$81,482	61	\$ 681
Negative cash flow in the period	10,748	8	2,753
Grand total	<u>\$92,230</u>	<u>69</u>	<u>\$3,434</u>

We also assess the realizable value of capitalized software development costs on a quarterly basis based upon current estimates of future cash flows from services utilizing the underlying software (principally utilized by our Database Marketing and Consulting segment). No impairment had occurred as of December 31, 2006.

#### *Goodwill*

Goodwill is tested for impairment at least annually at the segment level for the Database Marketing and Consulting segment (which consists of one subsidiary company) and for reporting units one level below the segment level for the other two segments in accordance with SFAS 142. Impairment occurs when the carrying amount of goodwill exceeds its estimated fair value. The impairment, if any, is measured based on the estimated fair value of the reporting unit. Fair value can be determined based on discounted cash flows, comparable sales, or valuations of other similar businesses. Our policy is to test goodwill for impairment in the fourth quarter of each year unless an indicator of impairment arises during a prior period.

The most significant assumptions used in these analyses are those made in estimating future cash flows. In estimating future cash flows, we generally use the financial assumptions in our internal forecasting model such as projected capacity utilization, projected changes in the prices we charge for our services and projected labor costs. We then use a discount rate we consider appropriate for the country where the business unit is providing services. If actual results are less than the assumptions used in performing the impairment test, the fair value of the reporting units may be significantly lower, causing the carrying value to exceed the fair value and indicating an impairment had occurred. Based on the analyses performed in the fourth quarter of 2006, there was no impairment to the December 31, 2006 goodwill balance of our North American and International BPO segments of \$36.3 million and \$8.6 million, respectively. If projected revenue used in the analysis of goodwill was 10% less than forecast (the projections assumed revenue growth rates ranging from 0% to 25% per annum over a three-year period), there would still be no impairment to goodwill.

Our Database Marketing and Consulting segment has experienced operating losses. We have plans to improve the future profitability of this segment. The goodwill for our Database Marketing and Consulting segment is \$13.4 million as of December 31, 2006. As a result of this segment's financial performance in the year ended December 31, 2006, we updated our cash flow analyses (which assume annual revenue increases approximately 10 percent per annum, calculated on a smaller revenue base than our historical revenue base and following our planned efforts to sell business to non-Ford dealers). Our analyses indicated that an impairment in goodwill had not occurred as of December 1, 2006. In addition, we engaged an independent appraisal firm to assess the fair value of this segment. The independent firm also indicated that no impairment of goodwill had occurred as of December 1, 2006. However, a sensitivity analysis of the forecast indicated that, without considering corresponding reductions in future operating expenses that we would implement in the event of a further revenue decline, it would not take a material change in the revenue forecast for an impairment to arise.

#### *Restructuring Liability*

We routinely assess the profitability and utilization of our Delivery Centers and existing markets. In some cases, we have chosen to close under-performing Delivery Centers and complete reductions in workforce to enhance future profitability. We follow SFAS 146, which specifies that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred, rather than upon commitment to a plan.

A significant assumption used in determining the amount of the estimated liability for closing Delivery Centers is the estimated liability for future lease payments on vacant centers, which we determine based on a third-party broker's assessment of our ability to successfully negotiate early termination agreements with landlords and/or our ability to sublease the facility. If our assumptions regarding early termination and the timing and amounts of sublease payments prove to be inaccurate, we may be required to record additional losses, or conversely, a future gain.

### *Adoption of SFAS No. 123(R) and Equity-Based Compensation Expense*

During the first quarter of 2006, we adopted SFAS No. 123 (revised 2004) "Share-Based Payment" ("SFAS 123(R)") applying the modified prospective method. SFAS 123(R) requires all equity-based payments to employees, including grants of employee stock options, to be recognized in the Consolidated Statement of Operations and Comprehensive Income based on the grant date fair value of the award. Prior to the adoption of SFAS 123(R), we accounted for equity-based awards under the intrinsic value method, which followed recognition and measurement principles of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations and equity-based compensation was included as pro-forma disclosure within the notes to the financial statements.

We did not modify the terms of any previously granted options in anticipation of the adoption of SFAS 123(R).

Income from Operations for the year ended December 31, 2006 was adversely affected by the impact of equity-based compensation due to the implementation of SFAS 123(R). For the year ended December 31, 2006, we recorded expense of \$6.9 million for equity-based compensation. We expect that equity-based compensation expense for fiscal 2007 and 2008 from existing awards will be approximately \$6.6 million and \$5.8 million, respectively. However, any future significant awards granted or required changes in the estimated forfeiture rates may impact this estimate. See Note 17 to the Consolidated Financial Statements for additional information.

### *Contingencies*

We record a liability in accordance with SFAS No. 5 "Accounting for Contingencies" for pending litigation and claims where losses are both probable and reasonably estimable. Each quarter, management, with the advice of legal counsel, reviews all litigation and claims on a case-by-case basis and assigns probability of loss and range of loss based upon the assessments of in-house counsel and outside counsel, as appropriate.

## **Explanation of Key Metrics and Other Items**

### *Cost of Services*

Cost of services principally include costs incurred in connection with our BPO operations and database marketing services, including direct labor, telecommunications, printing, postage, sales and use tax and certain fixed costs associated with Delivery Centers. In addition, cost of services includes income related to grants we may receive from time-to-time from local or state governments as an incentive to locate Delivery Centers in their jurisdictions which reduce the cost of services for those facilities.

### *Selling, General and Administrative*

Selling, general and administrative expenses primarily include costs associated with administrative services such as sales, marketing, product development, legal settlements, legal, information systems (including core technology and telephony infrastructure) and accounting and finance. It also includes equity-based compensation expense, outside professional fees (i.e. legal and accounting services), building maintenance expense for non-Delivery Center facilities and other items associated with general business administration.

### *Restructuring Charges, Net*

Restructuring charges, net primarily include costs incurred in conjunction with reductions in force or decisions to exit facilities, including termination benefits and lease liabilities, net of expected sublease rentals.

### *Interest Expense*

Interest expense includes interest expense and amortization of debt issuance costs associated with our grants, debt and capitalized lease obligations.

### *Other Income*

The main components of other income are miscellaneous receipts not directly related to our operating activities, such as foreign exchange transaction gains and corporate legal settlements.

### *Other Expenses*

The main components of other expenses are expenditures not directly related to our operating activities, such as corporate legal settlements and foreign exchange transaction losses.

## **Presentation of Non-GAAP Measurements**

### *Free Cash Flow*

Free cash flow is a non-GAAP liquidity measurement. We believe that free cash flow is useful to our investors because it measures, during a given period, the amount of cash generated that is available for debt obligations and investments other than purchases of property, plant and equipment. Free cash flow is not a measure determined by GAAP and should not be considered a substitute for “income from operations,” “net income,” “net cash provided by operating activities,” or any other measure determined in accordance with GAAP. We believe this non-GAAP liquidity measure is useful, in addition to the most directly comparable GAAP measure of “net cash provided by operating activities,” because free cash flow includes investments in operational assets. Free cash flow does not represent residual cash available for discretionary expenditures, since it includes cash required for debt service. Free cash flow also excludes cash that may be necessary for acquisitions, investments and other needs that may arise.

The following table reconciles free cash flow to net cash provided by operating activities for our consolidated results (amounts in thousands):

	<u>Year Ended December 31,</u>		
	<u>2006</u>	<u>2005</u>	<u>2004</u>
<b>Free cash flow</b>	\$29,206	\$ 3,880	\$ 71,004
Purchases of property, plant and equipment	65,528	37,606	41,677
<b>Net cash provided by operating activities</b>	<u>\$94,734</u>	<u>\$41,486</u>	<u>\$112,681</u>

We discuss factors affecting free cash flow between periods in the “Liquidity and Capital Resources” section below.

### *EBIT and EBITDA*

EBIT is defined as net income before interest and taxes. EBITDA is calculated by adding depreciation and amortization for the period to EBIT. EBIT and EBITDA are not defined GAAP measures and should not be considered alternatives to net income determined in accordance with GAAP as an indicator of operating performance, nor an alternative to cash flows from operating activities determined in accordance with GAAP as a measure of liquidity. Because others may not calculate EBIT and EBITDA in the same manner as TeleTech, the EBIT and EBITDA information presented below may not be comparable to similar presentations by others.

However, we believe that EBIT and EBITDA provide investors and Management with a valuable and alternative method for assessing our operating results. Management evaluates the performance of our subsidiaries and operating segments based on EBIT and believes that EBIT is useful to investors to demonstrate the operational profitability of our business segments by excluding interest and taxes, which are generally accounted for across the entire Company on a consolidated basis. EBIT is also one of the measures Management uses to determine resource allocations and incentive compensation. Further, we use EBITDA to evaluate the profitability and cash flow of our Delivery Centers when testing the impairment of long-lived assets.

The following table reconciles net income to EBIT and EBITDA for our consolidated results (amounts in thousands):

	<b>Years Ended December 31,</b>		
	<u>2006</u>	<u>2005</u>	<u>2004</u>
<b>Net income</b>	\$ 51,842	\$28,158	\$24,003
Interest income	(2,209)	(2,789)	(4,045)
Interest expense	5,943	3,510	8,542
Provision for income taxes	<u>14,676</u>	<u>2,516</u>	<u>9,464</u>
<b>EBIT</b>	70,252	31,395	37,964
Depreciation and amortization	<u>51,429</u>	<u>53,317</u>	<u>59,378</u>
<b>EBITDA</b>	<u>\$121,681</u>	<u>\$84,712</u>	<u>\$97,342</u>

## RESULTS OF OPERATIONS

### Year Ended December 31, 2006 Compared to December 31, 2005

The following tables are presented to facilitate Management's Discussion and Analysis. The following table presents results of operations by segment for the years ended December 31, 2006 and 2005 (amounts in thousands):

	Year Ended December 31,		Year Ended December 31,		\$ Change	% Change
	2006	% of Revenue	2005	% of Revenue		
<b>Revenue</b>						
North American BPO	\$ 814,963	67.3%	\$ 678,803	62.5%	\$136,160	20.1%
International BPO	356,106	29.4%	325,038	29.9%	31,068	9.6%
Database Marketing and Consulting	40,228	3.3%	82,832	7.6%	(42,604)	(51.4)%
	<u>\$1,211,297</u>	<u>100.0%</u>	<u>\$1,086,673</u>	<u>100.0%</u>	<u>\$124,624</u>	<u>11.5%</u>
<b>Cost of services</b>

<b>Provision for income taxes</b>	\$ (14,676)	(1.2)%	\$ (2,516)	(0.2)%	\$ (12,160)	483.3%

### *Revenue*

Revenues for the North American BPO for 2006 compared to 2005 were \$815.0 million and \$678.8 million, respectively. The increase in revenue for the North American BPO between periods was due to new client programs, expansion of existing client programs and \$34.1 million resulting from the acquisition of DAC. Further, the prior year included approximately \$45.4 million of revenue related to a short-term government program that did not have 2006 revenues as previously disclosed.

Revenues for the International BPO for 2006 compared to 2005 were \$356.1 million and \$325.0 million, respectively. The increase in revenue for the International BPO between periods was due to new client programs and the expansion of existing client programs in Latin America and Europe.

Revenues for Database Marketing and Consulting for 2006 compared to 2005 were \$40.2 million and \$82.8 million, respectively. The decrease is due primarily to a net decrease in the customer base as previously discussed.

### *Cost of Services*

Cost of services for the North American BPO for 2006 compared to 2005 were \$589.8 million and \$505.3 million, respectively. Cost of services as a percentage of revenue in the North American BPO decreased compared to the prior year due to the expansion of off-shore opportunities with a lower cost structure. In absolute dollars, the increase in cost of services corresponds to revenue growth from the implementation of new and expanded client programs and \$19.5 million resulting from the acquisition of DAC.

Cost of services for the International BPO for 2006 compared to 2005 were \$272.6 million and \$262.3 million, respectively. Cost of services as a percentage of revenue in the International BPO decreased due to increased capacity utilization that resulted from the expansion of off-shore opportunities with a lower cost structure. In absolute dollars, the increase in cost of services corresponds to revenue growth from the implementation of new or expanded client programs.

Cost of services for Database Marketing and Consulting for 2006 compared to 2005 were \$23.1 million and \$44.6 million, respectively. The decrease from the prior year was primarily due to the decrease in revenue and cost reductions.

### *Selling, General and Administrative*

Selling, general and administrative expenses for the North American BPO for 2006 compared to 2005 were \$111.6 million and \$82.8 million, respectively. The expenses increased in both absolute dollars and as a percentage of revenue primarily due to the stock option expense required by the adoption of SFAS 123(R) (see Note 17 to the Consolidated Financial Statements), the acquisition of DAC and increased allocation of corporate-level operating expenses.

Selling, general and administrative expenses for the International BPO for 2006 compared to 2005 were \$62.8 million and \$61.7 million, respectively. These expenses for the International BPO remained relatively constant in absolute dollars and as a percentage of revenue. The slight decrease as a percentage of revenue reflects reduced salaries and benefits expense resulting from headcount reductions in our operations in Europe and Asia Pacific.

Selling, general and administrative expenses for Database Marketing and Consulting for 2006 compared to 2005 were \$24.9 million and \$37.8 million, respectively. The decrease was primarily due to cost reductions and the lower allocation of corporate-level operating expenses.

### *Depreciation and Amortization*

Depreciation and amortization expense on a consolidated basis for 2006 compared to 2005 were \$51.4 million and \$53.3 million, respectively. Depreciation and amortization expense in both the North American BPO and the International BPO remained relatively consistent with the prior year.

Depreciation and amortization expense in Database Marketing and Consulting decreased compared to the prior year due to assets, primarily software development costs, reaching the end of their depreciable lives.

#### *Restructuring Charges, Net*

During 2006, we recognized restructuring charges in the amount of \$1.1 million related to reductions in force across all three segments and facility exit charges in the amount of \$0.8 million related to the International BPO. This was offset by the reversal of \$0.2 million in excess accruals across both the North American BPO and the International BPO as the actual costs incurred were less than the estimated accrual.

#### *Impairment Losses*

During 2006, we recognized impairment losses of \$0.6 million related to the following items: (i) \$0.4 million related to the reduction of the net book value of long-lived assets in New Zealand, Malaysia and India to their then estimated fair values; and (ii) \$0.2 million for the difference between the estimated and the actual value received for assets in the closed South Korea Delivery Center.

#### *Other Income (Expense)*

For 2006, interest income decreased by \$0.5 million due to less average daily cash and cash equivalent balances during the year. Interest expense increased by \$2.4 million due to increased borrowings compared to the prior year due primarily to the acquisition of DAC. The remaining change is primarily the result of foreign currency transaction losses and unfavorable settlements of non-operating items.

#### *Income Taxes*

The effective tax rate (after minority interest) for 2006 was 22%. This compares to an effective tax rate (after minority interest) of 8% in 2005. As discussed in Note 10 to the Consolidated Financial Statements, in 2006 we reversed \$5.6 million of the deferred tax valuation allowance during the year. In addition, we recorded new deferred tax assets of \$3.3 million associated with loss carry forwards that due to a corporate restructuring, which are now available for use against future taxable income. Without these items, our effective tax rate (after minority interest) in 2006 would have been 36%. The effective tax rate (after minority interest) in 2005 included the reversal of \$12.7 million of deferred tax valuation allowances and additional tax expenses (after minority interest) of \$3.7 million related to our Domestic Reinvestment Plan. Without these items, our effective tax rate (after minority interest) in 2005 would have also been 38%.

We expect that our effective tax rate (after minority interest) in future periods will be approximately 35%.

## Year Ended December 31, 2005 Compared to December 31, 2004

The following table presents results of operations by segment for the years ended December 31, 2005 and 2004 (amounts in thousands):

	Year Ended December 31,		Year Ended December 31,		\$ Change	% Change
	2005	% of Revenue	2004	% of Revenue		
<b>Revenue</b>						
North American BPO	\$ 678,803	62.5%	\$ 638,359	60.7%	\$ 40,444	6.3%
International BPO	325,038	29.9%	315,938	30.0%	9,100	2.9%

	<u>\$ 31,536</u>	<u>2.9%</u>	<u>\$ 48,468</u>	<u>4.6%</u>	<u>\$(16,932)</u>	<u>(34.9)%</u>
<b>Other income (expense)</b>	\$ 680	0.1%	\$ (14,263)	(1.4)%	\$ 14,943	(104.8)%
<b>Provision for income taxes</b>	\$ (2,516)	(0.2)%	\$ (9,464)	(0.9)%	\$ 6,948	(73.4)%

### *Revenue*

Revenues for the North American BPO for 2005 compared to 2004 were \$678.8 million and \$638.4 million, respectively. The increase in the North American BPO revenue between periods was driven primarily by the ramp up, during the third quarter that ended in the fourth quarter, of a short-term U.S. Government program to aid in hurricane relief efforts that generated \$45 million in revenue during 2005. Revenue also increased as a result of net expansion of existing client programs, that was offset by declining Minimum Commitments.

Revenues for the International BPO for 2005 compared to 2004 were \$325.0 million and \$315.9 million, respectively. The increase was primarily due to growth in our operations in Latin America and favorable changes in foreign currency exchange rates. These were offset by the loss of certain client programs, primarily in Scotland.

Revenues for Database Marketing and Consulting for 2005 compared to 2004 were \$82.8 million and \$98.4 million, respectively. The decrease was primarily due to the decrease in their customer base.

### *Cost of Services*

Cost of services for the North American BPO for 2005 compared 2004 were \$505.3 million and \$476.2 million, respectively. Cost of services as a percentage of revenue in the North American BPO was essentially flat compared to the prior year. In absolute dollars, cost of services increased as a result of the implementation of new programs, which was partially offset by the implementation of our plans to reduce costs and increase client profitability.

Cost of services for the International BPO for 2005 compared to 2004 were \$262.3 million and \$255.7 million, respectively. Cost of services as a percentage of revenue in the International BPO decreased slightly compared to the prior year due to our efforts to terminate and/or renegotiate unfavorable client contracts, which was offset by increased costs from new client programs in Latin America.

Cost of services for Database Marketing and Consulting for 2005 compared to 2004 were \$44.6 million and \$42.7 million, respectively. Cost of services as a percentage of revenue for Database Marketing and Consulting increased primarily due to lower revenue without a corresponding decrease in costs. In addition, costs increased when we transitioned certain back-office functions to lower cost locations.

### *Selling, General and Administrative*

Selling, general and administrative expenses for the North American BPO for 2005 compared to 2004 were \$82.8 million and \$70.9 million, respectively. The increase as a percentage of revenue and in absolute dollars in the North American BPO was related to increased sales and marketing expenses, new product development and software maintenance.

Selling, general and administrative expenses for the International BPO for 2005 compared to 2004 were \$61.7 million and \$57.9 million, respectively. These expenses in the International BPO increased both as a percentage of revenue and in absolute dollars, as a result of changes in foreign currency exchange rates, a regional litigation settlement and increased salaries and benefits expense resulting from headcount additions. These were offset by our efforts to reduce costs.

Selling, general and administrative expenses for Database Marketing and Consulting for 2005 compared to 2004 were \$37.8 million and \$36.9 million, respectively. The increase as a percentage of Revenue and in absolute dollars in Database Marketing and Consulting was caused primarily by the decrease in revenue as costs for selling, general and administrative expenses are primarily fixed in nature.

### *Depreciation and Amortization*

Depreciation and amortization expense for 2005 compared to 2004 on a consolidated basis were \$53.3 million and \$59.4 million, respectively.

Depreciation and amortization expense in the North American BPO decreased in absolute dollars between periods due to the closure of certain facilities. Depreciation and amortization expenses in the International BPO remained relatively unchanged. Depreciation and amortization expense in Database Marketing and Consulting also remained relatively unchanged, but increased as a percentage of revenue due to the decrease in revenue discussed above.

#### *Restructuring Charges, Net*

During 2005, we recognized restructuring charges in the amount of \$2.1 million related to reductions in force across both BPO segments and facility exit charges in the amount of \$0.7 million related to both BPO segments. This was offset by the reversal of \$0.1 million in excess accruals in the North American BPO as the actual costs incurred were less than the estimated accrual.

#### *Impairment Losses*

During 2005, we recognized impairment losses in the amount of \$4.7 million related to the following items: (i) \$2.1 million change in the International BPO related to its decision to close the Glasgow, Scotland Delivery Center; (ii) \$2.0 million charge in the International BPO related to the impairment of long-lived assets in its South Korea Delivery Center when we determined that we would no longer serve clients from, or market, that Delivery Center; and (iii) a \$0.6 million impairment charge in the North American BPO related to its decision to exit a lease early and to discontinue use of certain software.

#### *Other Income (Expense)*

Other income (expense) for 2005 compared to 2004 increased from an expense of \$14.3 million to income of \$0.7 million, respectively. Interest income decreased \$1.3 million due to less average daily cash and cash equivalents during the year. Interest expense decreased \$5.0 million due to decreased borrowings resulting from the restructuring of our long-term debt. We also incurred debt restructuring charges of \$10.4 million related to this restructuring. Included in the debt restructuring charge for 2004 is \$7.6 million of one-time charges of which \$6.4 million was a cash charge and the remaining \$1.2 million was a non-cash charge to write-off previously capitalized debt issuance costs. Additionally, we recorded a one-time charge of \$2.8 million related to the termination of an interest rate swap.

#### *Income Taxes*

The effective tax rate (after minority interest) for 2005 was 8%. This included the reversal of \$12.7 million of deferred tax valuation allowances and additional tax expenses of \$3.7 million related to our Domestic Reinvestment Plan. Without these items, our effective tax rate (after minority interest) in 2005 would have been 38%.

### **Liquidity and Capital Resources**

Our primary sources of liquidity during 2006 were existing cash balances, cash generated from operations and borrowings under the Company's revolving line of credit. We expect that our future working capital, capital expenditures and debt service requirements will be satisfied primarily from existing cash balances and cash generated from operations. Our ability to generate positive future operating and net cash flows is dependent upon, among other things, our ability to sell new business, expand existing client relationships and efficiently manage our operating costs.

The amount of capital required in 2007 will also depend on our levels of investment in infrastructure necessary to maintain, upgrade, or replace existing assets. Our working capital and capital expenditure requirements could increase materially in the event of acquisitions or joint ventures, among other factors. These factors could require that we raise additional capital in the future.

The following discussion highlights our cash flow activities during the years ended December 31, 2006, 2005 and 2004.

### *Cash and Cash Equivalents*

We consider all liquid investments purchased within 90 days of their maturity to be cash equivalents. Our cash and cash equivalents totaled \$60.5 million and \$32.5 million as of December 31, 2006 and 2005, respectively.

### *Cash Flows from Operating Activities*

We reinvest our cash flows from operating activities in our business or in the purchases of treasury stock. For the years 2006, 2005 and 2004, we reported net cash flows provided by operating activities of \$94.7 million, \$41.5 million and \$112.7 million, respectively. The increase from 2005 to 2006 resulted from increased net income as well as changes in working capital accounts. The decrease from 2004 to 2005 resulted from changes in working capital accounts, primarily due to increased accounts receivable. The increase in accounts receivable primarily resulted from the ramp-up of the short-term U.S. Government program discussed previously and other new or expanded clients that ramped in the fourth quarter of 2005.

### *Cash Flows from Investing Activities*

We reinvest cash in our business primarily to grow our client base and to expand our infrastructure. For the years 2006, 2005 and 2004, we reported net cash flows used in investing activities of \$113.0 million, \$41.4 million and \$42.1 million, respectively. The increase from 2005 to 2006 resulted from the acquisition of DAC and expanded capital expenditures for our embedded client base as well as new client contracts. The amount from 2004 to 2005 remained relatively consistent.

### *Cash Flows from Financing Activities*

For the years 2006, 2005 and 2004, we reported net cash flows provided by (used in) financing activities of \$43.7 million, (\$36.1) million and (\$123.0) million, respectively. The change from 2005 to 2006 resulted from a decrease in the purchase of treasury stock and increased exercises of stock options. The change from 2004 to 2005 relates primarily to the fact that in 2004 we restructured our debt and there was no such transaction in 2005.

### *Free Cash Flow*

Free cash flow (see "Presentation of Non-GAAP Measurements" for definition of free cash flow) was \$29.2 million, \$3.9 million and \$71.0 million for the years 2006, 2005 and 2004, respectively. The increase from 2005 to 2006 primarily resulted from higher cash flows from operations, which outpaced the increase in capital expenditures. The decrease from 2004 to 2005 resulted from lower cash flows from operations due to increased accounts receivable balances from the ramp up of the short-term government program discussed above.

### **Obligations and Future Capital Requirements**

Future maturities of our outstanding debt and contractual obligations are summarized as follows:

	<u>Less than 1 Year</u>	<u>2 to 3 Years</u>	<u>4 to 5 Years</u>	<u>Over 5 Years</u>	<u>Total</u>
Line of credit(1)	\$ —	\$ —	\$65,000	\$ —	\$ 65,000
Grant advances(1)	—	—	—	7,451	7,451
Purchase obligations(2)	18,974	24,135	6,118	—	49,227
Operating lease commitments(2)	25,840	37,637	25,292	34,613	123,382
Total	<u>\$44,814</u>	<u>\$61,772</u>	<u>\$96,410</u>	<u>\$42,064</u>	<u>\$245,060</u>

(1) Reflected in the accompanying Consolidated Balance Sheets

(2) Not reflected in the accompanying Consolidated Balance Sheets

### *Purchase Obligations*

Occasionally we contract with certain of our communications clients (which currently represents approximately 30% of our annual revenue) to provide us with telecommunication services. We believe these contracts are negotiated on an arms-length basis and may be negotiated at different times and with different legal entities.

### *Future Capital Requirements*

We expect total capital expenditures in 2007 to be approximately \$60.0 million. 77% of the expected capital expenditures in 2007 are related to the opening and/or expansion of Delivery Centers and 23% relates to the maintenance capital required for existing assets and internal technology projects. The anticipated level of 2007 capital expenditures is primarily dependent upon new client contracts and the corresponding requirements for additional Delivery Center capacity as well as enhancements to our technological infrastructure.

We may consider restructurings, dispositions, mergers, acquisitions and other similar transactions. Such transactions could include the transfer, sale or acquisition of significant assets, businesses or interests, including joint ventures, or the incurrence, assumption, or refinancing of indebtedness and could be material to the consolidated financial condition and consolidated results of our operations.

The launch of large client contracts may result in negative working capital because of the time period between incurring the costs for training and launching the program and the beginning of the accounts receivable collection process. As a result, periodically we may generate negative cash flows from operating activities.

### **Debt Instruments and Related Covenants**

We discuss debt instruments and related covenants in Note 12 to the Consolidated Financial Statements.

### **Client Concentration**

Our five largest clients accounted for 42%, 47% and 52% of our revenue for the years ended December 31, 2006, 2005 and 2004, respectively. In addition, these five clients accounted for an even greater proportional share of our consolidated earnings. The profitability of services provided to these clients varies greatly based upon the specific contract terms with any particular client. In addition, clients may adjust business volumes served by us based on their business requirements. The relative contribution of any single client to consolidated earnings is not always proportional to the relative revenue contribution on a consolidated basis. We believe the risk of this concentration is mitigated, in part, by the long-term contracts we have with our largest clients. Although certain client contracts may be terminated for convenience by either party, this risk is mitigated, in part, by the service level disruptions that would arise for our clients.

The contracts with our five largest clients expire between 2009 and 2010. Additionally, a particular client can have multiple contracts with different expiration dates. We have historically renewed most of our contracts with our largest clients. However, there is no assurance that future contracts will be renewed, or if renewed, will be on terms as favorable as the existing contracts.

### **Recently Issued Accounting Pronouncements**

We discuss the potential impact of recent accounting pronouncements in Note 1 and Note 10 to the Consolidated Financial Statements.

### **Business Outlook**

For 2007, we estimate that revenue will grow approximately 15 percent over 2006 as we focus on achieving our previously stated goal of reaching a \$1.5 billion revenue run-rate by the fourth quarter 2007. Furthermore, we believe that fourth quarter 2007 operating margin will increase to 10 percent, excluding unusual charges, if any.

For 2008, we believe that revenue will grow between 12% and 15% and operating margin will improve by approximately 200 basis points over 2007.

#### **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Market risk represents the risk of loss that may impact our consolidated financial position, consolidated results of operations, or consolidated cash flows due to adverse changes in financial and commodity market prices and rates. We are exposed to market risk in the areas of changes in U.S. interest rates, LIBOR and foreign currency exchange rates as measured against the U.S. dollar. These exposures are directly related to our normal operating and funding activities. As of December 31, 2006, we had entered into financial hedge instruments with several financial institutions to manage and reduce the impact of changes, principally the U.S./Canadian dollar exchange rates.

##### **Interest Rate Risk**

The interest rate on our Credit Facility is variable based upon the Prime Rate and LIBOR and, therefore, is affected by changes in market interest rates. As of December 31, 2006, there was a \$65.0 million outstanding balance under the Credit Facility. If the Prime Rate or LIBOR increased 100 basis points, there would not be a material impact to our financial position or results of operations.

##### **Foreign Currency Risk**

We have operations in Argentina, Australia, Brazil, Canada, China, England, Germany, India, Malaysia, Mexico, New Zealand, Northern Ireland, the Philippines, Scotland, Singapore and Spain. The expenses from these operations and in some cases the revenue, are denominated in local currency, thereby creating exposures to changes in exchange rates. As a result, we may experience substantial foreign currency translation gains or losses due to the volatility of other currencies compared to the U.S. dollar, which may positively or negatively affect our results of operations attributed to these subsidiaries. For the years ended December 31, 2006 and 2005, revenue from non-U.S. countries represented 64% and 56% of our consolidated revenue, respectively.

A global business strategy for us is to serve certain clients from Delivery Centers located in other foreign countries, including Argentina, Brazil, Canada, India, Malaysia, Mexico and the Philippines, in order to leverage lower operating costs in these foreign countries. In order to mitigate the risk of these foreign currencies from strengthening against the functional currency of the contracting subsidiary, which thereby decreases the economic benefit of performing work in these countries, we may hedge a portion, though not 100%, of the foreign currency exposure related to client programs served from these foreign countries. While our hedging strategy can protect us from adverse changes in foreign currency rates in the short-term, an overall strengthening of the foreign currencies would adversely impact margins in the segments of the contracting subsidiary over the long-term.

The majority of this exposure is related to work performed from Delivery Centers located in Canada and the Philippines. During the years ended December 31, 2006, 2005 and 2004, the Canadian dollar appreciated against the U.S. dollar by 0.1%, 3.3% and 6.7%, respectively. We have contracted with several financial institutions on behalf of our Canadian subsidiary to acquire a total of \$167.3 million Canadian dollars through June 2010 at a fixed price in U.S. dollars not to exceed \$150.6 million. However, certain contracts, representing \$27.6 million in Canadian dollars, give us the right (but not obligation) to purchase the Canadian dollars. If the Canadian dollar depreciates relative to the contracted exchange rate, we will elect to purchase the Canadian dollars at the then beneficial market exchange rate.

During the years ended December 31, 2006 and 2005, the Philippine peso appreciated against the U.S. dollar by 7.5% and 5.9%, respectively, and during the year ended December 31, 2004, the Philippine peso depreciated by 1.4%. We have contracted with several financial institutions on behalf of our Philippine subsidiary to acquire a total of 2.6 billion Philippine pesos through October 2008 at a fixed price of \$50.5 million U.S. dollars.

As of December 31, 2006, we had total derivative assets and (liabilities) associated with foreign exchange contracts of \$3.5 million and (\$6.5) million, respectively. The Canadian dollar derivative assets

and (liabilities) represented \$0.9 million and (\$6.5) million, respectively of the consolidated balance. Further, 77% of the asset value and 49% of the liability balance, settles within the next twelve months. The Philippine peso derivative assets represented \$2.1 million of the consolidated balance. Further, 89% of the asset value settles within the next twelve months. If the U.S./Canadian dollar or U.S. dollar/Philippine peso exchange rate were to increase or decrease by 10% from current period-end levels, we would incur a material gain or loss on the contracts. However, any gain or loss would be mitigated by corresponding gains or losses in our underlying exposures.

Other than the transactions hedged as discussed above and in Note 9 to the Consolidated Financial Statements, the majority of the transactions of our U.S. and foreign operations are denominated in the respective local currency while some transactions are denominated in other currencies. For example, the intercompany transactions that are expected to be settled are denominated in the local currency of the billing subsidiary. Since the accounting records of our foreign operations are kept in the respective local currency, any transactions denominated in other currencies are accounted for in the respective local currency at the time of the transaction. Upon settlement of such a transaction, any foreign currency gain or loss results in an adjustment to income. We do not currently engage in hedging activities related to these types of foreign currency risks because we believe them to be insignificant as we endeavor to settle these accounts on a timely basis.

### **Fair Value of Debt and Equity Securities**

We did not have any investments in debt or equity securities as of December 31, 2006.

## **ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

The financial statements required by this item are located beginning on page F-1 of this report and incorporated herein by reference.

## **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

We have had no changes in or disagreements with our independent auditors regarding accounting or financial disclosure matters.

### **ITEM 9A. CONTROLS AND PROCEDURES**

#### **Evaluation of Disclosure Controls and Procedures**

We have established disclosure controls and procedures to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 ("Exchange Act") is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Our disclosure controls and procedures have also been designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is accumulated and communicated to the Company's management, including the principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

#### **Evaluation of Internal Control Over Financial Reporting**

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, we have included a report on management's assessment of the design and effectiveness of its internal control over financial reporting as part of this Annual Report on Form 10-K for the fiscal year ended December 31, 2006. Our independent registered public accounting firm also audited and reported on management's assessment of the effectiveness of internal control over financial reporting. Management's report and the independent registered public accounting firm's attestation report are included under the captions entitled "Management's Report on Internal Control Over Financial Reporting" and "Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting" in Item 15 of this Annual Report on Form 10-K and are incorporated herein by reference.

Based on their evaluation as of December 31, 2006, our principal executive officer and principal financial officer of the Company have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are effective.

#### **Changes in Internal Control Over Financial Reporting**

There has been no change in our internal control over financial reporting during the fourth quarter of 2006 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

### **ITEM 9B. OTHER INFORMATION**

None.

## **PART III**

### **ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT**

Information concerning our executive officers is set forth in Item 4A of this Annual Report on Form 10-K under the caption "Executive Officers of TeleTech Holdings, Inc."

Information with respect to our directors is incorporated herein by reference to the information "Election of Directors" in our definitive proxy statement to be filed with the SEC pursuant to Regulation 14A of the Securities Exchange Act of 1934 in connection with the 2007 Annual Meeting of Stockholders (the "Proxy Statement").

### **ITEM 11. EXECUTIVE COMPENSATION**

We hereby incorporate by reference the information to appear under the caption "Executive Officers — Executive Compensation" in our definitive Proxy Statement for our 2007 Annual Meeting of Stockholders, provided, however, that neither the Report of the Compensation Committee on Executive Compensation nor the Performance Graph set forth therein shall be incorporated by reference herein.

### **ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS**

We hereby incorporate by reference the information to appear under the captions "Security Ownership of Certain Beneficial Owners and Management" and "Equity Compensation Plan Information" in our definitive Proxy Statement for our 2007 Annual Meeting of Stockholders.

### **ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

We hereby incorporate by reference the information to appear under the captions "Certain Relationships and Related Party Transactions" in our definitive Proxy Statement for our 2007 Annual Meeting of Stockholders.

### **ITEM 14. PRINCIPAL ACCOUNTANTS FEES AND SERVICES**

We hereby incorporate by reference the information to appear under the caption "Independent Audit Fees" in our definitive Proxy Statement for our 2007 Annual Meeting of Stockholders.

## PART IV

### ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

The following documents are filed as part of this report:

1. *Consolidated Financial Statements*

The Index to Consolidated Financial Statements is set forth on page F-1 of this report.

2. *Financial Statement Schedules*

All schedules for TeleTech have been omitted since the required information is not present or not present in amounts sufficient to require submission of the schedule, or because the information is included in the respective Consolidated Financial Statements or notes thereto.

3. *Exhibits*

<u>Exhibit No.</u>	<u>Description</u>
3.1	Restated Certificate of Incorporation of TeleTech (incorporated by reference to Exhibit 3.1 to TeleTech's Amendment No. 2 to Form S-1 Registration Statement (Registration No. 333-04097) filed on July 5, 1996)
3.2	Amended and Restated Bylaws of TeleTech (incorporated by reference to Exhibit 3.2 to TeleTech's Amendment No. 2 to Form S-1 Registration Statement (Registration No. 333-04097) filed on July 5, 1996)
10.1†	TeleTech Holdings, Inc. Stock Plan, as amended and restated (incorporated by reference to Exhibit 10.7 to TeleTech's Amendment No. 2 to Form S-1 Registration Statement (Registration No. 333-04097) filed on July 5, 1996)
10.2†	TeleTech Holdings, Inc. Amended and Restated Employee Stock Purchase Plan (incorporated by reference to Exhibit 99.1 to TeleTech's Form S-8 Registration Statement (Registration No. 333-69668) filed on September 19, 2001)
10.3†	TeleTech Holdings, Inc. Amended and Restated 1999 Stock Option and Incentive Plan (incorporated by reference to Exhibit 99.1 to TeleTech's Form S-8 Registration Statement (Registration No. 333-96617) filed on July 17, 2002)
10.4†	Newgen Results Corporation 1996 Equity Incentive Plan (incorporated by reference to Exhibit 10.1 to Newgen Results Corporation's Form S-1 Registration Statement (Registration No. 333-62703) filed on September 2, 1998)
10.5†	Newgen Results Corporation 1998 Equity Incentive Plan (incorporated by reference to Exhibit 10.3 to Newgen Results Corporation's Form S-1 Registration Statement (Registration No. 333-62703) filed on September 2, 1998)
10.6	Form of Client Services Agreement, 1996 version (incorporated by reference to Exhibit 10.12 to TeleTech's Amendment No. 1 to Form S-1 Registration Statement (Registration No. 333-04097) filed on June 5, 1996)
10.7	Agreement for Customer Interaction Center Management Between United Parcel General Services Co. and TeleTech (incorporated by reference to Exhibit 10.13 to TeleTech's Amendment No. 4 to Form S-1 Registration Statement (Registration No. 333-04097) filed on July 30, 1996)
10.8	Client Services Agreement dated May 1, 1997, between TeleTech Customer Care Management (Telecommunications), Inc. and GTE Card Services Incorporated d/b/a GTE Solutions (incorporated by reference to Exhibit 10.12 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 1997)
10.9	Operating Agreement for Ford Tel II, LLC effective February 24, 2000 by and among Ford Motor Company and TeleTech Holdings, Inc. (incorporated by reference to Exhibit 10.25 to TeleTech's Quarterly Report on Form 10-Q filed for the fiscal quarter ended March 31, 2000)
10.10	Credit Agreement dated as of October 29, 2002 among TeleTech, Bank of America, N.A. and the other Lenders party thereto (incorporated by reference to Exhibit 10.10 to TeleTech's Form 10K filed on March 8, 2004 (Commission File No. 0-210055))

<u>Exhibit No.</u>	<u>Description</u>
10.11	Amended and Restated Lease and Deed of Trust Agreement dated June 22, 2000 (incorporated by reference to Exhibit 10.31 to TeleTech's Quarterly Report on Form 10-Q filed for the fiscal quarter ended June 30, 2000)
10.12	Amended and Restated Participation Agreement dated June 22, 2000 (incorporated by reference to Exhibit 10.32 to TeleTech's Quarterly Report on Form 10-Q filed for the fiscal quarter ended June 30, 2000)
10.13	Private Placement of Senior Notes pursuant to Note Purchase Agreement dated October 30, 2001 (incorporated by reference to Exhibit 10.73 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2001)
10.14†	Employment Agreement dated May 15, 2001 between James Kaufman and TeleTech (incorporated by reference to Exhibit 10.64 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2001)
10.15†	Stock Option Agreement dated August 16, 2000 between James Kaufman and TeleTech (incorporated by reference to Exhibit 10.53 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2000)
10.16†	Non-Qualified Stock Option Agreement dated October 27, 1999 between Michael E. Foss and TeleTech (incorporated by reference to Exhibit 10.26 to TeleTech's Quarterly Report on Form 10-Q filed for the fiscal quarter ended March 31, 2000)
10.17†	Promissory Note dated November 28, 2000 by Sean Erickson for the benefit of TeleTech (incorporated by reference to Exhibit 10.62 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2000)
10.18†	Promissory Note dated March 28, 2001 by Sean Erickson for the benefit of TeleTech
10.19†	Employment Agreement dated October 15, 2001 between James Barlett and TeleTech (incorporated by reference to Exhibit 10.66 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2001)
10.20†	Stock Option Agreement dated October 15, 2001 between James Barlett and TeleTech (incorporated by reference to Exhibit 10.70 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2001)
10.21†	Restricted Stock Agreement dated October 15, 2001 between James Barlett and TeleTech (incorporated by reference to Exhibit 10.71 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2001)
10.22†	Restricted Stock Agreement dated October 15, 2001 between James Barlett and TeleTech (incorporated by reference to Exhibit 10.72 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2001)
10.23†	Employment Agreement dated October 15, 2001 between Ken Tuchman and TeleTech (incorporated by reference to Exhibit 10.68 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2001)
10.24†	Stock Option Agreement dated October 1, 2001 between Ken Tuchman and TeleTech (incorporated by reference to Exhibit 10.69 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2001)
10.25†	Letter Agreement dated January 11, 2001 between Chris Batson and TeleTech (incorporated by reference to Exhibit 10.54 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2000)
10.26†	Stock Option Agreement dated January 29, 2001 between Chris Batson and TeleTech (incorporated by reference to Exhibit 10.55 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2000)
10.27†	Letter Agreement dated January 26, 2001 between Jeffrey Sperber and TeleTech (incorporated by reference to Exhibit 10.56 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2000)
10.28†	Stock Option Agreement dated March 5, 2001 between Jeffrey Sperber and TeleTech (incorporated by reference to Exhibit 10.57 to TeleTech's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2000)

<u>Exhibit No.</u>	<u>Description</u>
10.29	First Amendment to Note Purchase Agreement dated as of February 1, 2003 by and among TeleTech Holdings, Inc. and each of the institutional investors party thereto (incorporated by reference to Exhibit 10.29 to TeleTechs Form 10K filed on March 8, 2004 (Commission File No. 0-210055))
10.30	Second Amendment to Note Purchase Agreement dated as of August 1, 2003 by and among TeleTech Holdings, Inc. and each of the institutional investors party thereto (incorporated by reference to Exhibit 10.30 to TeleTechs Form 10K filed on March 8, 2004 (Commission File No. 0-210055))
10.31	Third Amendment to Note Purchase Agreement dated as of September 30, 2003 by and among TeleTech Holdings, Inc. and each of the institutional investors party thereto (incorporated by reference to Exhibit 10.31 to TeleTechs Form 10K filed on March 8, 2004 (Commission File No. 0-210055))
10.32	First Amendment to Credit Agreement dated as of February 10, 2003 by and among TeleTech Holdings, Inc., the Lenders party thereto and Bank of America, N.A., as administrative agent (incorporated by reference to Exhibit 10.32 to TeleTechs Form 10K filed on March 8, 2004 (Commission File No. 0-210055))
10.33	Second Amendment to Credit Agreement dated as of June 30, 2003 by and among TeleTech Holdings, Inc., the Lenders party thereto and Bank of America, N.A., as administrative agent (incorporated by reference to Exhibit 10.33 to TeleTechs Form 10K filed on March 8, 2004 (Commission File No. 0-210055))

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the  
Board of Directors of TeleTech Holdings, Inc.:

We have audited the accompanying consolidated balance sheets of TeleTech Holdings, Inc. and subsidiaries as of December 31, 2006 and 2005 and the related consolidated statements of operations and comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2006. These consolidated financial statements are the responsibility of TeleTech Holdings, Inc.'s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of TeleTech Holdings, Inc. and subsidiaries as of December 31, 2006 and 2005 and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the consolidated financial statements, in fiscal year 2006, Teletech Holdings, inc. changed its method for stock-based compensation in accordance with the guidance provided in Statement of Financial Accounting Standards No. 123(R), "Share-Based Payment".

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of TeleTech Holdings, Inc.'s internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 7, 2007 expressed an unqualified opinion thereon.

## MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Under the supervision and with the participation of our management, including our Chief Executive Officer and Interim Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2006 based on the framework in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on that evaluation, our management concluded that our internal control over financial reporting was effective as of December 31, 2006.

Management's assessment of the effectiveness of our internal control over financial reporting as of December 31, 2006 has been audited by Ernst & Young, LLP, an independent registered public accounting firm, as stated in their report which is included elsewhere herein.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM  
ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

To the Stockholders and the  
Board of Directors of TeleTech Holdings, Inc.:

We have audited management's assessment, included in the section entitled Management's Report on Internal Control over Financial Reporting, that TeleTech Holdings, Inc. (the "Company") maintained effective internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). TeleTech Holdings, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that TeleTech Holdings, Inc. maintained effective internal control over financial reporting as of December 31, 2006, is fairly stated, in all material respects, based on the COSO criteria. Also, in our opinion, TeleTech Holdings, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of TeleTech Holdings, Inc. and subsidiaries as of December 31, 2006 and 2005 and the related consolidated statements of operations and comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2006 and our report dated February 7, 2007 expressed an unqualified opinion thereon.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

**(1) OVERVIEW AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Overview**

TeleTech Holdings, Inc. (“TeleTech” or “the Company”) serves its clients through two primary businesses: (i) Business Process Outsourcing (“BPO”), which provides outsourced business process, customer management and marketing services for a variety of industries via operations in the United States (“U.S.”), Argentina, Australia, Brazil, Canada, China, England, Germany, India, Malaysia, Mexico, New Zealand, Northern Ireland, the Philippines, Scotland, Singapore and Spain; and (ii) Database Marketing and Consulting, which provides outsourced database management, direct marketing and related customer acquisition and retention services for automotive dealerships and manufacturers in North America.

**Basis of Presentation**

The consolidated financial statements are comprised of the accounts of TeleTech, its wholly owned subsidiaries and its majority owned subsidiaries Percepta, LLC and TeleTech Services (India) Limited. All intercompany balances and transactions have been eliminated in consolidation. Certain amounts in 2005 and 2004 have been reclassified in the consolidated financial statements to conform to the 2006 presentation.

**Use of Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States (“U.S.”) requires management to make estimates and assumptions in determining the reported amounts of assets and liabilities, disclosure of contingent liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. The Company’s use of accounting estimates is primarily in the areas of (i) forecasting future taxable income for determining whether deferred tax valuation allowances are necessary; (ii) providing for self-insurance reserves, litigation reserves and restructuring reserves; (iii) estimating future estimated cash flows for evaluating the carrying value of long-lived assets including goodwill; and (iv) assessing recoverability of accounts receivable and providing for allowance for doubtful accounts.

**Concentration of Credit Risk**

The Company is exposed to credit risk in the normal course of business, primarily related to accounts receivable and derivative instruments. Historically, the losses related to credit risk have been immaterial. The Company regularly monitors its credit risk to mitigate the possibility of current and future exposures resulting in a loss. The Company evaluates the creditworthiness of its clients prior to entering into an agreement to provide services and on an on-going basis as part of the processes for revenue recognition and accounts receivable. The Company does not believe it is exposed to more than a nominal amount of credit risk in its derivative hedging activities, as the counter parties are established, well-capitalized financial institutions.

**Fair Value of Financial Instruments**

Fair values of cash equivalents and current accounts receivable and payable approximate the carrying amounts because of their short-term nature. Long-term debt carried on the Company’s Consolidated Balance Sheets as of December 31, 2006 and 2005 has a carrying value that approximates its estimated fair value.

**Cash and Cash Equivalents**

The Company considers all cash and investments with an original maturity of 90 days or less to be cash equivalents.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

**Derivatives**

The Company uses forward and option contracts to manage risks generally associated with foreign exchange rate volatility. The Company enters into foreign exchange forward and option contracts to hedge against the effect of exchange rate fluctuations on cash flows denominated in foreign currencies. These transactions are designated as cash flow hedges in accordance with the criteria established in Statement of Financial Accounting Standards ("SFAS") No. 133 "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133").

SFAS 133 requires every derivative instrument (including certain derivative instruments embedded in other contracts) to be recorded in the Company's Consolidated Balance Sheets as either an asset or liability measured at its fair value, with changes in the fair value of qualifying hedges recorded in Accumulated Other Comprehensive Income, a component of Stockholders' Equity. SFAS 133 requires that changes in a derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. SFAS 133 also requires that a company must formally document, designate and assess the effectiveness of transactions that receive hedge accounting treatment. Based on the criteria established by SFAS 133, all of the Company's cash flow hedge contracts are deemed effective. The settlement of these derivatives will result in reclassifications from Accumulated Other Comprehensive Income to earnings in the period during which the hedged transactions affect earnings.

While the Company expects that its derivative instruments will continue to meet the conditions for hedge accounting, if the hedges did not qualify as highly effective or if the Company did not believe that forecasted transactions would occur, the changes in the fair value of the derivatives used as hedges would be reflected currently in earnings.

**Property, Plant and Equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and amortization. Additions, improvements and major renewals are capitalized. Maintenance, repairs and minor renewals are expensed as incurred. Amounts paid for software licenses and third-party-packaged software are capitalized.

Depreciation and amortization are computed on the straight-line method based on the following estimated useful lives:

Building	25 years
Computer equipment and software	3 to 5 years
Telephone equipment	4 to 7 years
Furniture and fixtures	5 to 7 years
Leasehold improvements	3 to 15 years
Other	3 to 7 years

The Company depreciates assets acquired under capital leases and leasehold improvements associated with operating leases over the shorter of the expected useful life or the initial term of the leases.

During the year, the Company evaluates the carrying value of its Delivery Centers in accordance with SFAS No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144") to assess whether future operating results are sufficient to recover the carrying costs of these long-lived assets. The Company believes a sufficient period of time, generally two years, is required to establish market presence and build a client base for new or revalued centers in order to access recoverability.

The Company evaluates all centers quarterly, even those in operation less than two years, for other factors which could impact their recoverability. When the operating results of a Delivery Center have

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

reasonably progressed to a point making it likely that the site will continue to sustain losses in the future, or there is a current expectation that a Delivery Center will be closed or otherwise disposed of before the end of its previously estimated useful life, the Company selects the Delivery Center for further review. For Delivery Centers selected for further review, the Company estimates the future estimated probability-weighted cash flows from operating the Delivery Centers over their useful lives. Significant judgment is involved in projecting future capacity utilization, pricing, labor costs and the estimated useful lives. For impaired Delivery Centers, the Company writes the assets down to their estimated fair market value.

**Software Development Costs**

The Company accounts for software development costs in accordance with the American Institute of Certified Public Accountants Statement of Position 98-1 "Accounting for the Cost of Computer Software Developed or Obtained for Internal Use," which requires that certain costs related to the development or purchase of internal-use software be capitalized. These costs are amortized over the expected useful life of the software. The Company assesses the recoverability of its capitalized software costs, on a quarterly basis, based upon analyses of expected future cash flows of services utilizing the software. Capitalized software costs are included in Property, Plant and Equipment, Net in the accompanying Consolidated Balance Sheets.

**Goodwill**

Goodwill represents the excess of acquisition costs over the fair value of the net assets acquired in business combinations. Goodwill is tested for impairment at least annually at the reporting units one level below the segment level for the Company in accordance with SFAS No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142"). Impairment, if any, is measured based on the estimated fair value of the reporting unit. The Company determines fair value based on discounted estimated future probability-weighted cash flows although other methods are allowable. Impairment occurs when the carrying amount of goodwill exceeds its estimated fair value. The Company's policy is to test goodwill for impairment in the fourth quarter of each year unless circumstances indicate an impairment may exist during an intervening period.

**Contract Acquisition Costs**

Amounts paid to or on behalf of clients to obtain long-term contracts are capitalized and amortized in proportion to the initial expected future revenue from the contract, which in most cases results in straight-line amortization over the life of the contract. These costs are recorded as a reduction to Revenue in accordance with Emerging Issues Task Force ("EITF") No. 01-09 "Accounting for Consideration Given by a Vendor to a Customer or Reseller of the Vendor's Products." On a quarterly basis, the Company evaluates the recoverability of these costs based upon evaluations of the individual underlying client contracts' estimated future cash flows.

**Other Intangible Assets**

The Company accounts for other intangible assets, which include trademarks, customer relationships and non-compete agreements in accordance with SFAS 142. Definite life intangible assets are amortized on a straight-line basis over the length of the contract or benefit period, which generally ranges from two to 10 years. Impairment, if any, is determined based upon management reviews whereby, estimated undiscounted future cash flows associated with these assets or operations are compared with their carrying value to determine if a write-down to fair value (normally measured by the expected present value technique) is required. Other intangible assets are included in Other Long-term Assets in the accompanying Consolidated Balance Sheets.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

**Self Insurance Liabilities**

The Company self-insures for certain levels of workers' compensation, employee health insurance and general liability insurance. The Company records estimated liabilities for these insurance lines based upon analyses of historical claims experience performed by independent actuaries. The most significant assumption the Company makes in estimating these liabilities is that future claims experience will emerge in a similar pattern with historical claims experience. The liabilities related to workers' compensation and employee health insurance are included in Accrued Employee Compensation and Benefits in the accompanying Consolidated Balance Sheets. The liability for other general liability insurance is included in Other Accrued Expenses in the accompanying Consolidated Balance Sheets.

**Restructuring Liabilities**

SFAS No. 146 "Accounting for Costs Associated with Exit or Disposal Activities" ("SFAS 146") specifies that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred, instead of upon commitment to a plan. Management assesses the profitability and utilization of the Company's Delivery Centers on a quarterly basis and in some cases, management has chosen to close under-performing Delivery Centers and complete reductions in force to enhance future profitability.

A significant assumption used in determining the amount of estimated liability for closing Delivery Centers is the estimated liability for future lease payments on vacant centers, which the Company determines based on a third-party broker's assessment of the Company's ability to successfully negotiate early termination agreements with landlords and/or to sublease the facility. If the assumptions regarding early termination and the timing and amounts of sublease payments prove to be inaccurate, the Company may be required to record additional losses, or conversely, a future gain, in its Consolidated Statements of Operations and Comprehensive Income. The accrual for Restructuring Liabilities is included in Other Accrued Expenses in the accompanying Consolidated Balance Sheets.

**Grant Advances**

From time to time, the Company has received grants from local or state governments as an incentive to locate Delivery Centers in their jurisdictions. The Company's policy is to account for grant monies received in advance as a liability and recognize them as income over the life of the grant after it has met the grant conditions set forth in the agreement.

**Income Taxes**

The Company accounts for income taxes in accordance with SFAS No. 109 "Accounting for Income Taxes" ("SFAS 109"), which requires recognition of deferred tax assets and liabilities for the expected future income tax consequences of transactions that have been included in the consolidated financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Gross deferred tax assets may then be reduced by a valuation allowance for amounts that do not satisfy the realization criteria of SFAS 109.

The Company provides for U.S. income taxes expense on the earnings of foreign subsidiaries unless the subsidiaries' earnings are considered permanently reinvested outside the U.S.

**Stock Option Accounting**

On January 1, 2006, the Company adopted ("SFAS") No. 123 (revised 2004) "Share-Based Payment" ("SFAS 123(R)"), applying the modified prospective method. SFAS 123(R) requires all equity-based payments to employees, including grants of employee stock options, to be recognized in the

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

Consolidated Statements of Operations and Comprehensive Income and Comprehensive Income at the fair value of the award on the grant date. Under the modified prospective method, the Company is required to record equity-based compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards outstanding as of the date of adoption. The fair values of all stock options granted by the Company are determined using the Black-Scholes-Merton model ("B-S-M Model").

**Foreign Currency Translation**

The assets and liabilities of the Company's foreign subsidiaries, whose functional currency is not the U.S. dollar, are translated at the exchange rates in effect on the last day of the period and income and expenses are translated at the weighted average exchange rate during the reporting period. The net effect of translation gains and losses are recorded in Accumulated Other Comprehensive Income in the accompanying Consolidated Balance Sheets, which is a separate component of Stockholders' Equity. Foreign currency transaction gains and losses are included in Other Income (Expense) in the accompanying Consolidated Statements of Operations and Comprehensive Income. Intercompany loans are generally treated as permanently invested as settlement is not planned or anticipated in the foreseeable future. Accordingly, such foreign currency transactions are recorded in Accumulated Other Comprehensive Income.

**Revenue Recognition**

The Company recognizes revenue at the time services are performed. The Company's BPO business recognizes revenue as follows:

*Production Rate* — Revenue is recognized based on the billable hours or minutes of each agent, as defined in the client contract. The rate per billable hour or minute is based on a predetermined contractual rate. This contractual rate can fluctuate based on the Company's performance against certain pre-determined criteria related to quality and performance.

*Performance-based* — Under performance-based arrangements, the Company is paid by its clients based on achievement of certain levels of sales or other client-determined criteria specified in the client contract. The Company recognizes performance-based revenue by measuring its actual results against the performance criteria specified in the contracts. Amounts collected from clients prior to the performance of services are recorded as deferred revenue.

*Hybrid* — Under hybrid models the Company is paid a fixed fee or production element as well as a performance-based element.

Certain client programs provide for adjustments to monthly billings based upon whether the Company meets or exceeds certain performance criteria as set forth in the contract. Increases or decreases to monthly billings arising from such contract terms are reflected in Revenue in the accompanying Consolidated Statements of Operations and Comprehensive Income, as earned or incurred.

In addition, the Company's Database and Marketing Segment enters into certain client contracts in which the contractual billing periods do not coincide with the periods over which the services are provided. In those instances, the Company recognizes Revenue straight-line over the life of the contract.

**Start-Up Training Revenue and Costs**

The Company follows EITF No. 00-21 "Revenue Arrangements with Multiple Deliverables" ("EITF 00-21"), which provides guidance on how to account for multiple element contracts. The Company has determined that EITF 00-21 requires the deferral of revenue for the initial training that occurs upon commencement of a new client contract if that training is billed separately to a client. Accordingly, the

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

corresponding training costs, consisting primarily of labor and related expenses, are also deferred. In these circumstances, both the training revenue and costs are amortized straight-line over the life of the client contract as a component of Revenue and Cost of Services, respectively, in the accompanying Consolidated Statements of Operations and Comprehensive Income. In situations where these initial training costs are not billed separately, but rather included in the hourly service rates paid by the client over the life of the contract, no deferral is necessary as the revenue is being recognized over the life of the contract and the associated training expenses are expensed as incurred.

The deferred Start-Up Training Revenue is recorded as a component of Other Short-term Liabilities or Other Long-term liabilities in the accompanying Consolidated Balance Sheets based upon the remaining term of the underlying client contracts.

The deferred Start-Up Training Costs are recorded as a component of Prepaids and Other Current Assets or Other Long-term Assets in the accompanying Consolidated Balance Sheets based upon the remaining term of the underlying client contracts.

#### **Deferred Revenue**

The Company records amounts billed and received, but not earned, as deferred revenue. These amounts are recorded as a component of Other Short-term Liabilities or Other Long-term Liabilities based on their maturity in the accompanying Consolidated Balance Sheets.

#### **Operating Leases**

The Company has negotiated certain rent holidays, landlord/tenant incentives and escalations in the base price of the rent payments over the term of their operating leases. In accordance with SFAS No. 13 "Accounting for Leases," Financial Accounting Standards Board ("FASB") Technical Bulletin 88-1 "Issues Relating to Accounting for Leases," and FASB Technical Bulletin 85-3 "Accounting for Operating Leases with Scheduled Rent Increases," the Company recognizes rent holidays and rent escalations on a straight-line basis over the lease term. The landlord/tenant incentives are recorded as deferred rent and amortized on a straight line over the lease term. Deferred rent liabilities are included in Other Long-term Liabilities in the accompanying Consolidated Balance Sheets.

#### **Net Income Per Share**

Basic Net Income per Share is computed by dividing the Company's Consolidated Net Income by the weighted average number of common shares outstanding. The impact of any potentially dilutive securities is excluded. Diluted Net Income per Share is computed by dividing the Company's Consolidated Net Income by the weighted average number of shares including dilutive potential common shares outstanding during the period.

#### **Recently Issued Accounting Pronouncements**

In June 2006, the FASB issued Interpretation No. 48 "Accounting for Uncertainty in Income Taxes — An Interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 is effective as of the beginning of the first annual period beginning after December 15, 2006. FIN 48 defines the threshold for recognizing the tax benefits of a tax return filing position in the financial statements as "more-likely-than-not" to be sustained by the taxing authority. This is different than the accounting practice currently followed by the Company, which is to recognize the best estimate of the impact of a tax position only when the position is "probable" of being sustained on audit based solely on the technical merits of the position. The term "probable" is consistent with the use of the term in SFAS No. 5 "Accounting for Contingencies," to mean that "the future event or events are likely to occur." See Note 10 for further discussion on the Company's review of this recently issued pronouncement.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

**(2) ACQUISITIONS**

On June 30, 2006, the Company acquired 100 percent of the outstanding common shares of Direct Alliance Corporation ("DAC") from Insight Enterprises, Inc. (NASDAQ: NSIT). DAC is a provider of outsourced direct marketing services to third parties in the U.S. and its acquisition is consistent with the Company's strategy to grow and to focus on providing outsourced marketing, sales and BPO solutions to large multinational clients. DAC is included in the Company's North American BPO segment.

The preliminary total purchase price of \$46.4 million in cash was funded utilizing the Company's Credit Facility. The purchase agreement provides for the seller to (i) receive a future payment of up to \$11.0 million based upon the earnings of DAC for the last six months of 2006 exceeding specified amounts and (ii) pay the Company up to \$5.0 million in the event certain clients of DAC do not renew, on substantially similar terms, their service agreement with DAC as set forth in the purchase agreement. DAC did not meet the base targets for 2006 and therefore no adjustment to the purchase price was made for the first item. In addition, a contract with an existing client has not been finalized and therefore no adjustment to the purchase price has been made for the second item.

The preliminary allocation of the purchase price to the assets acquired and liabilities assumed was based upon the Company's intention to make a 338 election for income tax reporting for the acquisition of DAC and was as follows (amounts in thousands):

Current assets	\$14,548
Property, plant and equipment	4,410
Intangible assets	9,100
Goodwill	<u>24,438</u>
Total assets acquired	52,496
Current liabilities	<u>(6,123)</u>
Total liabilities assumed	<u>(6,123)</u>
Net assets acquired	<u>\$46,373</u>

The Company acquired identifiable intangible assets as a result of the acquisition of DAC. The intangible assets acquired, excluding costs in excess of net assets acquired, are preliminarily classified and valued as follows (amounts in thousands):

	<u>Value</u>	<u>Amortization Period</u>
Trade name	\$1,800	None; indefinite life
Customer relationships	<u>7,300</u>	10 years
Total	<u>\$9,100</u>	

These amounts are included as components of Other Intangible Assets discussed in Note 8.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

The following table presents the pro-forma combined results of operations assuming (i) DAC's historical unaudited financial results; (ii) the DAC acquisition closed on January 1, 2005; (iii) pro-forma amortization expense of the intangible assets and (iv) pro-forma interest expense assuming the Company utilized its Credit Facility to finance the acquisition (amounts in thousands):

	(Unaudited)	
	Year Ended December 31,	
	2006	2005
Revenue	\$1,245,392	\$1,164,116
Income from operations	\$ 73,506	\$ 39,237
Net income	\$ 52,432	\$ 31,623
<b>Weighted average shares outstanding</b>		
Basic	69,184	72,121
Diluted	70,615	73,631
<b>Net income per share</b>		
Basic	\$ 0.76	\$ 0.44
Diluted	\$ 0.74	\$ 0.43

The pro-forma results above are not necessarily indicative of the operating results that would have actually occurred if the acquisition had been in effect on the date indicated, nor are they necessarily indicative of future results of the combined companies.

**(3) SEGMENT INFORMATION**

The Company serves its clients through two primary businesses, BPO and Database Marketing and Consulting. In previous filings the North American BPO segment was referred to as "North American Customer Management" and the International BPO segment was referred to as "International Customer Management."

BPO provides business process, customer management and marketing services for a variety of industries via Delivery Centers throughout the world. When the Company begins operations in a new country, it determines whether the country is intended to primarily serve U.S. based clients, in which case the country is included in the North American BPO segment, or if the country is intended to serve both domestic clients from that country and U.S. based clients, in which case the country is included in the International BPO segment. This is consistent with the Company's management of the business, internal financial reporting structure and operating focus. Operations for each segment of BPO are conducted in the following countries:

North American BPO

United States  
Canada  
India  
Philippines

International BPO

Argentina  
Australia  
Brazil  
China  
England  
Germany  
Malaysia  
Mexico  
New Zealand  
Northern Ireland  
Scotland  
Singapore  
Spain

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

The Database Marketing and Consulting segment, which consists of one of the Company's subsidiaries, provides outsourced database management, direct marketing and related customer acquisitions and retention services for automobile dealerships and manufacturers in North America.

The Company allocates to each segment its portion of corporate-level operating expenses. All intercompany transactions between the reported segments for the periods presented have been eliminated.

It is a significant Company strategy to garner additional business through the lower cost opportunities offered by certain foreign countries. Accordingly, the Company contracts with certain clients in one country to provide services from Delivery Centers in other foreign countries including Argentina, Brazil, Canada, India, Mexico, Malaysia and the Philippines. Under this arrangement, the contracting subsidiary invoices and collects from their local client, while also entering into a contract with the foreign operating subsidiary to reimburse the foreign subsidiary for its costs plus a reasonable profit. This reimbursement is reflected as revenue by the foreign subsidiary. As a result, a portion of the revenue from these client contracts is recorded by the contracting subsidiary, while a portion is recorded by the foreign operating subsidiary. For U.S. clients served from Canada, India and the Philippines, which represents the majority of these arrangements, all the revenue remains within the North American BPO segment. For U.S. clients served from Argentina and Mexico, a portion of the revenue is reflected in the International BPO segment. For European and Asia Pacific clients served from the Philippines, a portion of the revenue is reflected in the North American BPO segment. For the years ended December 31, 2006, 2005 and 2004, approximately \$7.4 million, \$2.2 million and \$2.9 million, respectively, of income from operations in the International BPO segment was generated from these arrangements. For the years ended December 31, 2006, 2005 and 2004, approximately \$0.2 million, \$0.0 million and \$0.0 million, respectively, of income from operations in the North American BPO segment was generated from these arrangements.

<b>Balance, end of year</b>	<u>\$ 4,720</u>	<u>\$3,422</u>	<u>\$ 3,997</u>

**Significant Clients**

The Company had one client that contributed in excess of 10% of total revenue for the year ended December 31, 2006, which operates in the communications industry. The Company had two clients that contributed in excess of 10% of total revenue for the years ended December 31, 2005 and 2004, both of which operated in the communications industry. The revenue from these clients as a percentage of total revenue was as follows:

	<u>Year Ended</u> <u>December 31,</u>		
	<u>2006</u>	<u>2005</u>	<u>2004</u>
Client A	16%	17%	18%
Client B	7%	10%	13%

Accounts receivable from these clients was as follows (amounts in thousands):

	<u>December 31,</u>	
	<u>2006</u>	<u>2005</u>
Client A	\$30,862	\$34,657
Client B	\$10,731	\$18,488

The loss of one or more of its significant clients could have a material adverse effect on the Company's business, operating results, or financial condition. The Company does not require collateral from its clients. To limit the Company's credit risk, management performs ongoing credit evaluations of its clients and maintains allowances for uncollectible accounts. Although the Company is impacted by economic conditions in the communications and media, automotive, financial services and government services industries, management does not believe significant credit risk exists as of December 31, 2006.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

**(5) PROPERTY, PLANT AND EQUIPMENT**

Property, plant and equipment consisted of the following (amounts in thousands):

	<u>December 31,</u>	
	<u>2006</u>	<u>2005</u>
Land and buildings	\$ 31,530	\$ 30,158
Computer equipment and software	230,493	217,655
Telephone equipment	59,800	55,961

2009	1,246
2010	730
2011	730
Thereafter	<u>3,286</u>
Total	<u><u>\$9,020</u></u>

**(9) DERIVATIVES**

The Company conducts a significant portion of its business in currencies other than the U.S. dollar, the currency in which the consolidated financial statements are reported. Correspondingly, the Company's operating results could be adversely affected by foreign currency exchange rate volatility relative to the U.S. dollar. The Company's subsidiaries in Argentina, Canada, Mexico and the Philippines use the local currency as their functional currency in addition to paying labor and other operating costs. Conversely, revenue for these foreign subsidiaries is derived principally from client contracts that are invoiced and collected in U.S. dollars. To hedge against the risk of a weaker U.S. dollar, the Company's U.S. entity has contracted on behalf of its foreign subsidiaries with several financial institutions to acquire (utilizing forward, non-deliverable forward and/or option contracts) the functional currency of the foreign subsidiary at a fixed U.S. dollar exchange rate at specific dates in the future. The Company pays up-front premiums to obtain option hedge instruments.

While the Company has implemented certain strategies to mitigate risks related to the impact of fluctuations in currency exchange rates, it cannot ensure that it will not recognize gains or losses from international transactions, as this is part of transacting business in an international environment. Not every exposure is or can be hedged and, where hedges are put in place based on expected foreign exchange exposure, they are based on forecasts which may vary or which may later prove to be inaccurate. Failure to successfully hedge or anticipate currency risks properly could adversely affect the Company's operating results.

As of December 31, 2006, the notional amount of these derivative instruments is summarized as follows (amounts in thousands):

	<u>Local Currency Amount</u>	<u>U.S. Dollar Amount</u>	<u>Dates Contracts are Through</u>
Canadian Dollar	167,300	\$150,601	June 2010
Philippine Peso	2,580,000	50,466	October 2008
Argentine Peso	53,000	16,694	October 2008
Mexican Peso	33,000	<u>3,010</u>	June 2007
		<u><u>\$220,771</u></u>	

These derivatives, including option premiums, are classified as Prepaids and Other Current Assets of \$2.9 million and \$6.8 million; Other Long-term Assets of \$0.6 million and \$0.6 million; Accrued Expenses of \$3.2 million and \$0.0 million and Other Long-term Liabilities of \$3.3 million and \$0.0 million as of December 31, 2006 and 2005, respectively.

The Company recorded deferred tax assets (liabilities) of \$1.5 million and (\$1.9) million related to these derivatives as of December 31, 2006 and 2005, respectively. A total of (\$2.4) million and \$3.0 million of

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

deferred (losses) gains, net of tax, on derivative instruments as of December 31, 2006 and 2005, respectively, were recorded in Accumulated Other Comprehensive Income in the accompanying Consolidated Balance Sheets.

During the years ended December 31, 2006, 2005 and 2004, the Company recorded gains of \$6.3 million, \$5.7 million and \$7.6 million, respectively, for settled hedge contracts and the related premiums. These are reflected in Revenue in the accompanying Consolidated Statements of Operations and Comprehensive Income.

The Company also entered into a foreign exchange forward contract to reduce the short-term effect of foreign currency fluctuations related to a \$19.2 million intercompany note payable from its Canadian subsidiary to a U.S. subsidiary. The gains and losses on this foreign exchange contract offset the transaction gains and losses on this foreign currency obligation. These gains and losses are recognized in earnings as the Company elected not to classify the hedge for hedge accounting treatment. The value of this contract was \$0.3 million and \$0.1 million as of December 31, 2006 and 2005, respectively and is recorded as a component of Prepaids and Other Current Assets in the accompanying Consolidated Balance Sheets.

**(10) INCOME TAXES**

The sources of pre-tax accounting income, after accounting for minority interest earnings, are as follows (amounts in thousands):

	<u>Year Ended December 31,</u>		
	<u>2006</u>	<u>2005</u>	<u>2004</u>
Domestic	\$22,628	\$19,453	\$12,811

Other	<u>(1,295)</u>	<u>(2,509)</u>
Total deferred tax liabilities	<u>(7,050)</u>	<u>(9,377)</u>
Net deferred tax assets	<u>\$ 49,747</u>	<u>\$ 34,234</u>

As required by SFAS 109, the Company periodically reviews the likelihood that deferred tax assets will be realized in future tax periods under the "more-likely-than-not" criteria. In making this judgment, SFAS 109 requires that all available evidence, both positive and negative, should be considered to determine whether, based on the weight of that evidence, a valuation allowance is required.

The net change in valuation allowance for the year is an increase of \$8.4 million. In 2006, as the Company was able to estimate its deferred tax assets in the United Kingdom, the Company recorded a deferred tax asset, and established an offsetting valuation allowance of \$15.3 million, for a net impact of zero. In addition, the Company recorded \$0.8 million for deferred tax assets in India, which do not meet the "more likely than not" criteria of FAS 109. Also during the fourth quarter, due to a increased profitability in Argentina leading to a change in judgment concerning the recoverability of deferred tax assets in Argentina, the Company reversed the remaining \$0.5 million of its deferred tax valuation allowance in that jurisdiction. For similar reasons, the Company reached the decision during the second quarter of 2006, that it was appropriate to reverse \$0.7 million of the valuation allowance in Argentina and \$4.5 million of valuation allowance for Spain. This change in judgment occurring during the second and fourth quarters of 2006 was due to what management considered sufficient positive evidence suggesting that there will be sufficient taxable income in future periods to realize deferred tax assets in those jurisdictions. The factors leading to this change in judgment included (i) renewal or signing of new multi-year contracts

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

during the fourth quarter that will produce more than enough taxable income to realize the deferred tax asset based on existing sales prices and cost structures, (ii) a positive and sustainable trend in earnings and three cumulative years of book and taxable income exclusive of the circumstances that created the losses in prior year and (iii) evidence that the loss in prior year was an aberration rather than a continuing condition (e.g., a large client initially not providing contractual volumes for a Dedicated Delivery Center). The remaining decrease of \$2.0 million is the result of numerous items including the expiration of tax loss and tax credit carryforwards and the reconciliation of actual results to accounting estimates.

As of December 31, 2006 the Company has approximately \$32.0 million of net deferred tax assets in the U.S. and \$17.7 million of net deferred tax assets related to certain international locations whose recoverability is dependent upon their future profitability. As of December 31, 2006 the deferred tax valuation allowance is \$19.0 million and relates primarily to tax loss carry forwards and other deferred tax assets in the U.K. and India and state tax credits which do not meet the “more-likely-than-not” standard under SFAS 109. The utilization of these state tax credits are subject to numerous factors including various expiration dates, generation of future taxable income over extended periods of time and state income tax apportionment factors which are subject to change.

As required by SFAS 109, when there is a change in judgment concerning the recovery of deferred tax assets in future periods, the valuation allowance is reversed into earnings during the quarter in which the change in judgment occurred.

As of December 31, 2006, after consideration of all tax loss and tax credit carry back opportunities, the Company had net foreign tax loss carry forwards expiring as follows (amounts in thousands):

2007	\$ 2,712
2008-2012	5,938
2016	—
2017	8,710
2018	720
2020	3,710
2021	5,719
No expiration	<u>35,149</u>
Total	<u>\$62,658</u>

As of December 31, 2006, domestically, the Company has \$9.4 million of federal tax loss carryforwards and state tax credit carryforwards of \$2.0 million that if unused will expire between 2007 and 2013.

As of December 31, 2006 the cumulative amount of foreign earnings considered permanently invested and not repatriated was \$52.3 million. If these earnings become taxable in the U.S., some portion of them would be subject to incremental U.S. income tax expense and foreign withholding tax expense.

The Company has been granted “Tax Holidays” as an incentive to attract foreign investment by the governments of the Philippines and India. Generally, a Tax Holiday is an agreement between the Company and a foreign government under which the Company receives certain tax benefits in that country, such as exemption from taxation on profits derived from export related activities. In the Philippines, the Company has been granted three separate agreements for a five year period, expiring at various times during 2009 and 2010. Also, the Company’s joint venture in India is party to a five-year agreement granting a Tax Holiday expiring in 2009. The aggregate effect on income tax expense in 2006 as a result of these agreements was approximately \$2.8 million.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

In June 2006, the Financial Accounting Standards Board issued FIN 48. FIN 48 clarifies the accounting for income taxes, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognizing, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006.

The Company will adopt FIN 48 as of January 1, 2007, as required. The cumulative effect of adopting FIN 48 will be recorded as a change to opening retained earnings in the first quarter of 2007. The Company expects that the adoption of FIN 48 will not have a significant impact on the Company's consolidated financial position, results of operations and effective tax rate. The Company will record an adjustment to reduce opening retained earnings by up to \$4.0 million.

**(11) RESTRUCTURING CHARGES AND IMPAIRMENT LOSSES**

**Restructuring Charges**

A rollforward of the activity in the Company's restructuring accruals for the years ended December 31, 2006 and 2005 follows:

	<u>Closure of Delivery Centers</u>	<u>Reduction in Force</u>	<u>Total</u>
<b>Balance as of December 31, 2004</b>	\$ 599	\$ 233	\$ 832
Expense	682	2,139	2,821
Payments	(193)	(1,145)	(1,338)
Reversal of unused balances	<u>—</u>	<u>(148)</u>	<u>(148)</u>
<b>Balance as of December 31, 2005</b>	1,088	1,079	2,167
Expense	801	1,057	1,858
Payments	(747)	(1,772)	(2,519)
Reversal of unused balances	<u>(55)</u>	<u>(173)</u>	<u>(228)</u>
<b>Balance as of December 31, 2006</b>	<u>\$1,087</u>	<u>\$ 191</u>	<u>\$ 1,278</u>

During the year ended December 31, 2006, the Company recognized restructuring charges in the amount of \$1.1 million related to reductions in force across all three segments and facility exit charges in the amount of \$0.8 million related to its International BPO segment. This was offset by the reversal of \$0.2 million in excess accruals across both BPO segments as the actual costs incurred were less than the estimated accrual.

During the year ended December 31, 2005, the Company recognized restructuring charges in the amount of \$2.1 million related to reductions in force across both BPO segments and facility exit charges in the amount of \$0.7 million related to both BPO segments. This was offset by the reversal of \$0.1 million in the North American BPO as the actual costs incurred were less than the estimated accrual.

**Impairment Losses**

During the year ended December 31, 2006, the Company recognized impairment losses of \$0.6 million related to the following items: (i) \$0.4 million related to the reduction of the net book value of long-lived assets in New Zealand, Malaysia and India to their then estimated fair values; and (ii) \$0.2 million for the difference between the estimated and the actual value received for assets in the closed South Korea Delivery Center.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

During the year ended December 31, 2005, the Company recognized impairment losses in the amount of \$4.7 million related to the following items: (i) \$2.1 million change in the International BPO related to its decision to close the Glasgow, Scotland Delivery Center; (ii) \$2.0 million charge in the International BPO related to the impairment of long-lived assets in its South Korea Delivery Center when the Company determined that it would no longer serve clients from, or market, that Delivery Center; and (iii) a \$0.6 million impairment charge in the North American BPO related to its decision to exit a lease early and to discontinue use of certain software.

**(12) INDEBTEDNESS**

During the third quarter 2006, the Company refinanced its credit facility (“Credit Facility”) with a syndication of banks. This Credit Facility permits the Company to borrow up to \$150 million, with an option to increase the borrowing limit to a maximum of \$225 million (subject to approval by the lenders) at any time up to 90 days prior to maturity of the Credit Facility on September 27, 2011. The Company may request a one year extension of the maturity date, subject to unanimous approval by the lenders. The Credit Facility is secured by the majority of the Company’s domestic accounts receivable and a pledge of 65% of the capital stock of specified material foreign subsidiaries. The Company’s domestic subsidiaries are guarantors under the Credit Facility.

In the fourth quarter of 2006, the Company exercised its option to increase the borrowing limit of the Credit Facility to \$180 million. The Credit Facility, which includes customary financial covenants, may be used for general corporate purposes, including working capital, purchases of treasury stock and acquisition financing. As of December 31, 2006, the Company was in compliance with all financial covenants. The Credit Facility accrues interest at a rate based on either (1) the Prime Rate, defined as the higher of the lender’s prime rate or the Federal Funds Rate plus 0.50%, or (2) the London Interbank Offered Rate (“LIBOR”) plus an applicable credit spread, at the Company’s option. The interest rate will vary based on the Company’s leverage ratio as defined in the Credit Facility. As of December 31, 2006, interest accrued at the weighted-average rate of approximately 5.925%. In addition, the Company is obligated to pay commitment fees on the unused portion of the Credit Facility, at a rate of 0.125% per annum. As of December 31, 2006 and 2005, the Company had outstanding borrowings under the Credit Facility of \$65.0 million and \$26.7 million, respectively. The Company’s borrowing capacity is reduced by the letters of credit issued under the Credit Facility. The unused commitment under the Credit Facility was \$104.2 million as of December 31, 2006.

**(13) GRANT ADVANCES**

During the ordinary course of business, the Company receives grants from certain regional authorities in areas where the Company has Delivery Centers. These grants contain provisions whereby they are earned when the Company achieves certain milestones, the majority of which relate to the hiring and retaining of employees and certain capital expenditures. The Company records liabilities for funds it has received but for which it has not earned. The liability recorded at December 31, 2006 and 2005 was \$8.0 million and \$6.5 million, respectively and relates primarily to one grant in the International BPO. This amount is due in 2012 if the terms of the grant have not been met.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

**(14) START-UP TRAINING REVENUE AND COSTS**

Start-Up Training Deferred Revenue in the accompanying Consolidated Balance Sheets consist of the following (amounts in thousands):

	<u>December 31,</u>	
	<u>2006</u>	<u>2005</u>
Deferred start-up revenue — current	\$ 6,616	\$4,852
Deferred start-up revenue — long-term	<u>5,936</u>	<u>3,660</u>
Total deferred start-up revenue	<u>\$12,552</u>	<u>\$8,512</u>

The Company recognized Start-Up Training Revenue as follows (amounts in thousands):

	<u>Year Ended December 31,</u>		
	<u>2006</u>	<u>2005</u>	<u>2004</u>
<b>Balance, beginning of year</b>	\$ 8,512	\$ 3,451	\$ 3,867
Net deferred revenue recognized:			
Amounts deferred due to new business	9,432	6,583	3,139
Amortization of prior period deferrals	<u>(5,418)</u>	<u>(1,921)</u>	<u>(3,154)</u>
Total net deferred revenue recognized	4,014	4,662	(15)
Foreign currency impact	<u>26</u>	<u>399</u>	<u>(401)</u>
<b>Balance, end of year</b>	<u>\$12,552</u>	<u>\$ 8,512</u>	<u>\$ 3,451</u>

Start-Up Training Deferred Costs in the accompanying Consolidated Balance Sheets consist of the following (amounts in thousands):

	<u>December 31,</u>	
	<u>2006</u>	<u>2005</u>
Deferred start-up costs — current	\$2,865	\$2,502
Deferred start-up costs — long-term	<u>2,344</u>	<u>1,133</u>
Total deferred start-up costs	<u>\$5,209</u>	<u>\$3,635</u>

The Company recognized Start-Up Training Costs as follows (amounts in thousands):

	<u>Year Ended December 31,</u>		
	<u>2006</u>	<u>2005</u>	<u>2004</u>
<b>Balance, beginning of year</b>	\$ 3,635	\$ 1,306	\$ 1,545
Net deferred costs recognized:			
Amounts deferred due to new business	4,208	3,212	1,281
Amortization of prior period deferrals	<u>(2,633)</u>	<u>(1,082)</u>	<u>(1,440)</u>
Total net deferred costs recognized	1,575	2,130	(159)
Foreign currency impact	<u>(1)</u>	<u>199</u>	<u>(80)</u>
<b>Balance, end of year</b>	<u>\$ 5,209</u>	<u>\$ 3,635</u>	<u>\$ 1,306</u>

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

**(15) COMMITMENTS AND CONTINGENCIES**

**Leases**

The Company has various operating leases for equipment, Delivery Centers and office space, which generally contain renewal options. Rent expense under operating leases was approximately \$45.3 million, \$39.8 million and \$38.2 million for the years ended December 31, 2006, 2005 and 2004, respectively.

The future minimum rental payments required under non-cancelable operating leases as of December 31, 2006 are as follows (amounts in thousands):

2007	\$ 25,840
2008	20,858
2009	16,779
2010	14,399
2011	10,893
Thereafter	<u>34,613</u>
Total	<u>\$123,382</u>

In addition, the Company records operating lease expenses on a straight-line basis over the life of the lease as described in Note 1. The deferred lease liability as of December 31, 2006 and 2005 was \$8.4 million and \$7.8 million, respectively and is included in Other Long-Term Liabilities in the accompanying Consolidated Balance Sheets.

**Letters of Credit**

As of December 31, 2006 outstanding letters of credit and other performance guarantees totaled approximately \$14.0 million, which primarily guarantee workers' compensation, other insurance related obligations and facility leases.

**Guarantees**

The Company's Credit Facility is guaranteed by all of the Company's domestic subsidiaries.

**Ford Agreement**

Under an agreement with Ford, the Company has the right to require Ford to purchase its interest in the operations providing BPO services to Ford at fair market value at any time after December 31, 2004. Ford also has the right to require the Company to sell its interest at fair market value at any time after December 31, 2004. The Company does not intend to require Ford to purchase its interest and we have not received any notice from Ford indicating an interest on their part to purchase the Company's interest.

**Legal Proceedings**

From time to time, the Company may be involved in claims or lawsuits that arise in the ordinary course of business. Accruals for claims or lawsuits have been provided for to the extent that losses are deemed both probable and estimable. Although the ultimate outcome of these claims or lawsuits cannot be ascertained, on the basis of present information and advice received from counsel, it is management's opinion that the disposition or ultimate determination of such claims or lawsuits will not have a material adverse effect on the Company.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

**(16) NET INCOME PER SHARE**

The following table sets forth the computation of basic and diluted net income per share for the periods indicated:

	<u>Year Ended December 31,</u>		
	<u>2006</u>	<u>2005</u>	<u>2004</u>
<b>Shares used in basic earnings per share calculation</b>	69,184	72,121	74,751
Effects of dilutive securities:			
Stock options	<u>1,431</u>	<u>1,510</u>	<u>1,358</u>
Total effects of dilutive securities	<u>1,431</u>	<u>1,510</u>	<u>1,358</u>
<b>Shares used in dilutive earnings per share calculation</b>	<u><u>70,615</u></u>	<u><u>73,631</u></u>	<u><u>76,109</u></u>

For the years ended December 31, 2006, 2005 and 2004, 0.5 million, 3.2 million and 3.6 million, respectively, of options to purchase shares of common stock were outstanding but not included in the computation of diluted net income per share because the effect would have been anti-dilutive. The Company has also excluded the impact of outstanding warrants, as the impact would be anti-dilutive for all periods presented.

**(17) EMPLOYEE COMPENSATION PLANS**

**Employee Benefit Plan**

The Company has two 401(k) profit-sharing plans that allow participation by employees who have completed six months of service, as defined and are 21 years of age or older. Participants may defer up to 15% of their gross pay up to a maximum limit determined by U.S. federal law. Participants are also eligible for a matching contribution, at the Company's discretion, of 50% of the first 6% of compensation a participant contributes to the plan. Participants vest in matching contributions over a four-year period. Company matching contributions to the 401(k) plans totaled \$1.2 million, \$1.1 million and \$1.2 million for the years ended December 31, 2006, 2005 and 2004, respectively.

**Employee Stock Purchase Plan**

In July 1996, the Company adopted an employee stock purchase plan (the "ESPP"). Pursuant to the ESPP, as amended, an aggregate of 1,000,000 shares of common stock of the Company were available for issuance under the ESPP. Employees were eligible to participate in the ESPP after three months of service. In May 2004, the Company amended the ESPP to increase the number of shares available for issuance under the ESPP to 2,500,000 shares. The price per share purchased in any offering period is equal to the lesser of 85% of the fair market value of the common stock on the first day of the offering period or on the purchase date. The offering periods have a term of six months. In 2005, the Company elected to terminate the ESPP effective October 15, 2005. Stock purchased under the plan for the years ended December 31, 2005 and 2004 were \$0.5 million and \$0.5 million, respectively.

**Stock Compensation Plans**

*Overview*

In February 1999, the Company adopted the TeleTech Holdings, Inc. 1999 Stock Option and Incentive Plan (the "1999 Option Plan"). The purpose of the 1999 Option Plan is to enable the Company to continue to (a) attract and retain high quality directors, officers, employees and potential employees, consultants, and independent contractors of the Company or any of its subsidiaries; (b) motivate such persons to promote the long-term success of the business of the Company and its subsidiaries; and (c) induce employees of companies that are acquired by TeleTech to accept employment with TeleTech following

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

such an acquisition. The 1999 Option Plan supplements the 1995 Option Plan. An aggregate of 14 million shares of common stock has been reserved for issuance under the 1999 Option Plan, which permits the award of incentive stock options, non-qualified stock options, stock appreciation rights, and shares of restricted common stock. As previously discussed, the 1999 Option Plan also provides annual stock option grants to Directors. Outstanding options generally vest over a period of four to five years and are exercisable for ten years from the date of grant. The 1999 Option Plan had 3.6 million shares available for grant as of December 31, 2006.

*Accounting for Stock Options*

On January 1, 2006, the Company adopted SFAS 123(R), applying the modified prospective method. SFAS 123(R) requires all equity-based payments to employees, including grants of employee stock options, to be recognized in the Consolidated Statements of Operations and Comprehensive Income at the fair value of the award on the grant date. Under the modified prospective method, the Company is required to record equity-based compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards outstanding as of the date of adoption. The fair values of all stock options granted by the Company were determined using the Black-Scholes-Merton ("B-S-M") Model.

The fair values of the options granted to the Company's employees were estimated on the date of grant using the B-S-M Model. The following table provides the range of assumptions used for stock options granted:

	Years Ended December 31,		
	2006	2005	2004
Risk-free interest rate	4.50% - 5.50%	3.65% - 4.51%	2.72% - 3.98%
Expected life in years	3.8 - 4.8	4.1 - 4.7	5.3 - 5.5
Expected volatility	53.67% - 58.87%	74.66% - 76.25%	77.97% - 79.72%
Dividend yield	0.00%	0.00%	0.00%
Weighted-average volatility	57.40%	75.36%	78.79%
Weighted-average fair value	\$6.31	\$6.06	\$5.44

The Company's computation of expected volatility for the year ended December 31, 2006 is based on historical volatility. Our computation of expected life is based on historical exercise patterns. Our dividend yield is 0.0%, since we have no history of paying dividends and currently have no plans to do so. Our risk-free interest rate is the U.S. Treasury bill rate for the period equal to the expected term based on the U.S. Treasury note strip principal rates as reported in well-known and widely used financial sources.

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

A summary of option activity under the Plans as of December 31, 2006 and for the years ended December 31, 2006, 2005 and 2004 are as follows:

	<u>Shares</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contract Term Years</u>	<u>Aggregate Intrinsic Value (000's)</u>
<b>Outstanding as of December 31, 2003</b>	9,792,564	\$11.00		
Grants	3,004,000	\$ 8.11		
Exercises	(686,979)	\$ 6.56		
Cancellations/expirations	<u>(2,347,444)</u>	\$12.38		
<b>Outstanding as of December 31, 2004</b>	9,762,141	\$10.08		
Grants	2,214,500	\$10.04		
Exercises	(1,270,734)	\$ 6.11		
Cancellations/expirations	<u>(2,180,376)</u>	\$11.65		
<b>Outstanding as of December 31, 2005</b>	8,525,531	\$10.26		
Grants	1,596,450	\$12.93		
Exercises	(2,282,648)	\$ 8.36		
Cancellations/expirations	<u>(804,695)</u>	\$11.99		
<b>Outstanding as of December 31, 2006</b>	<u>7,034,638</u>	\$11.28	7.1	\$79,342
<b>Vested and exercisable as of December 31, 2006</b>	<u>3,171,006</u>	\$12.22	5.3	\$38,735

A summary of the status of the Company's unvested shares as of December 31, 2006 and for the years ended December 31, 2006, 2005 and 2004 are as follows:

	<u>Shares</u>	<u>Weighted- Average Grant- Date Fair Value</u>
<b>Unvested as of December 31, 2004</b>	4,518,269	\$5.44
Granted	2,214,500	\$5.76
Vested	(1,277,810)	\$5.12
Forfeited	<u>(1,296,914)</u>	\$5.72
<b>Unvested as of December 31, 2005</b>	4,158,045	\$5.62
Granted	1,596,450	\$6.31
Vested	(1,296,708)	\$4.50
Forfeited	<u>(594,155)</u>	\$5.75
<b>Unvested as of December 31, 2006</b>	<u>3,863,632</u>	\$6.26

As of December 31, 2006, there was approximately \$18.5 million of total unrecognized compensation cost (including the impact of expected forfeitures as required under SFAS 123(R)) related to unvested share-based compensation arrangements granted under the Plans that the Company had not recorded. That cost is expected to be recognized over the weighted-average period of four years (the Company recognizes compensation expense straight-line over the vesting term of the option grant). The total fair

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

value of shares vested (excluding expected forfeitures) during the year ended December 31, 2006 was \$5.8 million.

Cash received from option exercises under all share-based payment arrangements for the years ended December 31, 2006, 2005 and 2004 was \$19.4 million, \$7.4 million and \$5.1 million, respectively.

As a result of adopting SFAS 123(R) on January 1, 2006, the Company's income before income taxes and net income for the year ended December 31, 2006 are \$6.9 million and \$4.1 million lower, respectively, than if it had continued to account for share-based compensation under Accounting Principles Board Opinion ("APB") No. 25 "Accounting for Stock Issued to Employees" ("APB 25"). Basic and diluted earnings per share for the year ended December 31, 2006 are each \$0.06 lower, respectively, than if the Company had continued to account for share-based compensation under APB 25. The compensation cost that has been charged against income for the Plans is included in Selling, General and Administrative in the accompanying Consolidated Statements of Operations and Comprehensive Income.

The following table illustrates the effect on net income and earnings per share for the years ended December 31, 2005 and 2004, if the Company had applied the fair value recognition provisions of SFAS 123(R) to stock-based employee compensation (amounts in thousands except per share amounts):

	<u>December 31,</u>	
	<u>2005</u>	<u>2004</u>
<b>Net income as reported</b>	\$28,158	\$24,003
Add (deduct): Stock-based employee compensation expense included in reported net income, net of related tax effects	(439)	321
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	<u>(4,032)</u>	<u>(5,665)</u>
<b>Pro-forma net income</b>	<u>\$23,687</u>	<u>\$18,659</u>
<b>Weighted average shares outstanding as reported</b>		
Basic	72,121	74,751
Diluted	73,631	76,109
<b>Net income per share as reported</b>		
Basic	\$ 0.39	\$ 0.32
Diluted	\$ 0.38	\$ 0.32
<b>Pro-forma net income per share</b>		
Basic	\$ 0.33	\$ 0.25
Diluted	\$ 0.32	\$ 0.25

**Restricted Stock Grant**

Effective January 22, 2007, the Compensation Committee of the Company granted an aggregate of approximately 1.5 million restricted stock units ("RSUs") to members of the Company's management team. The grants replace the Company's January 2005 Long Term Incentive Plan and are intended to provide management with additional incentives to promote the success of the Company's business,

**TELETECH HOLDINGS, INC. AND SUBSIDIARIES**  
**Notes to the Consolidated Financial Statements**  
**As of and for the Years Ended December 31, 2006, 2005 and 2004**

thereby aligning their interests with the interests of the Company's stockholders. Two-thirds of the RSUs granted vest pro rata over three years based solely on the Company exceeding specified operating income performance targets in each of the years 2007, 2008 and 2009. If the performance target for a particular year is not met, the RSUs scheduled to vest in that year are cancelled. The remaining one-third of the RSUs vest pro-rata over five years based on the individual recipient's continued employment with the Company. Settlement of the RSUs shall be made in shares of the Company's common stock by delivery of one share of common stock for each RSU then being settled.

**(18) RELATED PARTY TRANSACTIONS**

The Company has entered into agreements under which Avion, LLC ("Avion") and AirMax, LLC ("AirMax") provide certain aviation flight services as requested by the Company. Such services include the use of an aircraft and flight crew. Kenneth D. Tuchman, Chairman and Chief Executive Officer of the Company, has a direct 100% beneficial ownership interest in Avion and an indirect interest in AirMax. During 2006, 2005 and 2004, the Company paid an aggregate of \$0.9 million, \$0.9 million and \$0.6 million, respectively, to Avion for services provided to the Company. Mr. Tuchman also purchases services from AirMax and from time to time provides short-term loans to AirMax. During 2006, 2005 and 2004 the Company paid to AirMax an aggregate of \$1.1 million, \$1.1 million and \$0.7 million, respectively, for services provided to the Company. The Audit Committee of the Board of Directors reviews these transactions annually and believes that the fees charged by Avion and AirMax are at fair market value.

During 2006, 2005 and 2004, the Company utilized the services of Korn Ferry International ("KFY") for executive search projects. James Barlett, Vice Chairman and a director of the Company is a director of KFY. During the years ended December 31, 2006, 2005 and 2004, the Company paid \$0.1 million, \$0.0 million and \$0.2 million, respectively, to KFY for executive search services.

During 2006, the Company purchased a hosted sales force automation tool from Salesforce.com. Shirley Young, a director of the Company is a director of Salesforce.com. During the years ended December 31, 2006, 2005 and 2004, the Company paid \$0.4 million, \$0.5 million and \$0.0 million, respectively to Salesforce.com.

**(19) OTHER FINANCIAL INFORMATION**

**Self-insurance Liabilities**

Self-insurance liabilities of the Company were as follows (amounts in thousands):

	<u>December 31,</u>	
	<u>2006</u>	<u>2005</u>
Workers' compensation	\$4,243	\$5,988
Employee health insurance	1,466	1,378
Other general liability insurance	<u>549</u>	<u>1,327</u>
Total self-insurance liabilities	<u>\$6,258</u>	<u>\$8,693</u>

**Accumulated Other Comprehensive Income**

As of December 31, 2006, Accumulated Other Comprehensive Income consists of \$8.1 million and (\$2.4) million of foreign currency translation adjustments and derivatives valuation, respectively. As of December 31, 2005, Accumulated Comprehensive Income consists of \$0.7 million and \$3.0 million of foreign currency translation adjustments and derivatives valuation, respectively.

## CERTIFICATION

I, Kenneth D. Tuchman, Chairman and Chief Executive Officer of TeleTech Holdings, Inc., certify that:

1. I have reviewed this Annual Report on Form 10-K of TeleTech Holdings, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

## Forward-looking Statements:

This Annual Report may contain certain forward-looking statements that involve risks and uncertainties. The projections and statements contained in these forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. All statements not based on historical fact are forward-looking statements that involve substantial risks and uncertainties. In accordance with the Private Securities Litigation Reform Act of 1995, following are important factors that could cause our actual results to differ materially from those expressed or implied by such forward-looking statements, including but not limited to the following: our belief that we are continuing to see strong demand for our services and that sales cycles are shortening; the ability to close and ramp new business opportunities that are currently being pursued or that are in the final stages with existing and/or potential clients in order to achieve our Business Outlook; estimated revenue from new, renewed, and expanded client business as volumes may not materialize as forecasted or be sufficient to achieve our Business Outlook; the possibility of lower revenue or price pressure from our clients experiencing a business downturn or merger in their business; greater than anticipated competition in the BPO and customer management market, causing adverse pricing and more stringent contractual terms; risks associated with losing or not renewing client relationships, particularly large client agreements, or early termination of a client agreement; the risk of losing clients due to consolidation in the industries we serve; consumers' concerns or adverse publicity regarding our clients' products; our ability to execute our growth plans, including sales of new services (such as TeleTech OnDemand); our ability to achieve our year-end 2007 and 2008 financial goals, including those set forth in our Business Outlook; achieving continued profit improvement in our International Business Process Outsourcing (BPO) operations; risks associated with attracting and retaining cost-effective labor at our delivery centers; the possibility of additional asset impairments and restructuring charges; risks associated with changes in foreign currency exchange rates; the possibility of future impairments and / or restructuring charges in our Database Marketing and Consulting segment; our ability to find cost-effective delivery locations, obtain favorable lease terms, and build or retrofit facilities in a timely and economic manner; risks associated with business interruption due to weather, pandemic or terrorist-related events; economic or political changes affecting the countries in which we operate; changes in accounting policies and practices promulgated by standard setting bodies; and new legislation or government regulation that impacts the BPO and customer management industry.

Please refer to the Company's filings with the Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2006, for a detailed discussion of factors discussed above and other important factors that may impact the Company's business, results of operations, financial condition, and cash flows. The Company assumes no obligation to update its forward-looking statements to reflect actual results or changes in factors affecting such forward-looking statements.
